

DIAMOND FLAG RACE:

In this event, the rider carries a flag to the first barrel (left hand barrel), swaps the flags, makes a right hand turn at the top flag, swaps the flags at the second barrel and goes through the starting gate. The winner is the person who completes this the fastest. Elimination occurs if a flag is not placed in the bucket correctly when the flags are swapped, if the rider does not stay on the outside of the peg and barrels, if a flag is dropped, if a bucket, barrel or peg is knocked or broken, or if the rider touches the barrel with there hand.
