EXPERIENCE

OWNER/ARTIST • AUTUMN STEAM • 2010-PRESENT

My responsibilities included international collaborations between myself and other artists. I self-published 6 art books, blogged, took professional photos of bands, commercial work, small businesses and products, and private clients. I helped curate art shows and worked behind the scenes putting events for artists together. Most of my time was spent doing fashion design for performing artists building complicated costumes and high end women's fashion.

SENIOR EDITOR/WRITER • EMERGING ARTIST MAGAZINE • 2013-14

I worked with my team to interview, photograph, review and write about emerging artists from around the world. We published a quarterly print magazine and an online magazine that I designed.
