# Tango Discovery Workshop

*With*  
**Mauricio Castro**

*From Buenos Aires*

Sat-Sun April 7-8

At The Beat, 2560 Ninth St, Berkeley

---

The workshop will be a series of four classes covering all aspects of the Tango Discovery method. Tango Discovery, one of the biggest contributions of the young generation of Argentine Tango masters, is a training and teaching method that accelerates the learning process for followers and leaders. Regardless of level and style, all dancers can greatly benefit from applying this structured and measurable method to their practice.

*Space is limited; register early to secure your place!*

Classes will focus on the three building blocks of Tango Discovery:

- 1) **Tango Awareness:** Smart proactive following and leading, synchrony, visual intelligence and hypersensitivity liberate dancers to spend more time enjoying the dance with partners of different levels and abilities, developing a more subtle connection.
- 2) **Organic Structure:** Systematically increase your dance vocabulary and complexity. Learn how to keep growing without the need for a teacher to show you every step.
- 3) **100% Improvisation:** Unlock your creative potential. Instead of patterns, learn to follow and lead anything at any point in time. Your potential is only limited by how much *and* how intelligently you practice. Practice meaningfully and learn to measure your own progress.

**Sat April 7 (2 classes): 3pm-4:30pm and 4:45pm-6:15pm**

**Sun April 8 (2 classes): 3pm-4:30pm and 4:45pm-6:15pm**

Given the nature of the method, classes will integrate all the material and are therefore not offered as the usual menu of individual moves or topics. Also in view of the method's essence, advanced dancers will not be slowed down by beginners and all levels are welcome.

Contact Guillermo Garcia at [guillegotan@yahoo.com](mailto:guillegotan@yahoo.com) or (408) 718-0501 for workshop information.

Private lessons: \$100/hr for couples and \$120/hr for singles (plus studio fee).

Books and CD-ROMs on the Tango Discovery method will be available at the workshops. Mauricio Castro's performance video clips, books and CD-ROMs are also available at [www.tangodiscovery.com](http://www.tangodiscovery.com)

More info at [www.geocities.com/guillegotan/TangoDance](http://www.geocities.com/guillegotan/TangoDance)

Born in Buenos Aires, Argentina, Mauricio Castro is a dancer and teacher of Argentine Tango and the founder of Tango Discovery. He created and developed a personal style of dancing and teaching tango in Buenos Aires and then, through Tango Discovery, he brought it to the rest of the world. To his solid musical education at the prestigious Berklee College of Music (Boston, USA), he added contemporary dance and movement technique studies (Laban Analysis, Bartenieff Fundamentals and The Skinner Releasing Technique, among others). In addition, he also studied Human Sciences in Neuro Linguistic Programming, Design Human Engineering and Human Ecology. The joining of these disciplines and influences allowed him to create his particular and unmistakable style, systematizing it into an innovative method to accelerate the process of learning to dance. Breaking out from rigid sequences, his focus is to develop improvisation skills through a simple and dynamic technique where students discover not only a relaxed and released style, but also a new way of expressing and communicating with their bodies. The synthesis of his method, recognized worldwide by hundred of dancers, is available not only by attending his classes but also in his books and cutting-edge multimedia CD-ROMs, available in several languages.
