

A PERSONAL LOOK AT THE BOARD

There are many years of experience on the board that make sound decisions. If the clubs that are hosting the roundup would use the tools and the guidelines that are available to them, then each future roundup will have a much better success. "We are not the enemy," we're only there to provide help when needed. Our long-range goal is to see a bigger and brighter picture for everyone to continue to enjoy with their families, love ones and friends.
