

SCIENCE (Chemistry)

Acids and Bases - Exercise 3 (Acids, Bases)

Name: _____ () Class: _____ Date: _____

Reactions of acids

1) Name all the reactions that can occur with acids

i) _____

ii) _____

iii) _____

iv) _____

2) Give the general word equation for these reactions then identify the reactants and products

i) _____

reactants are: _____ and _____ Products are: _____

ii) _____

reactants are: _____ and _____ Products are: _____

iii) _____

reactants are: _____ and _____ Products are: _____

iv) _____

reactants are: _____ and _____ Products are: _____

Reactions of bases

Name all the reactions that can occur with bases

i) _____

ii) _____

The name given for the reaction between acid and base is _____

Give the general word equation for these reactions then identify the reactants and products

i) _____

reactants are: _____ and _____ Products are: _____

ii) _____

reactants are: _____ and _____ Products are: _____
