

there were 5 rounds(knockout)in csc (june 2004 indore)

if u clear first round u go into second and so on

1 aptitude test

2technical test

3group speaking

4tech interv

5HR interv

i was able to reach HR interv

1aptitude test

very very easy question(100 question in 25 minutes)

so only important thing is speed questions r really easy just u need 2 read them and u can mark the answer

so how fast u read is also important

no need to preparation if u have (atleast)an average IQ

2technical test

75 question in 30 minutes

so again speed matters nearly 35-37 question were from previous pprs

9-10 question were from elex and electrical bkgrnd so it is hard to solve them follow ur intuition

3group speaking

somewhat like GD(but not GD)

coz in this each person will get chance to speak in round robin order

u have to speak min 30 sec and max 1 minute

igot the topic SONIA AS P.M.

there were 13 in my grp 7 got through(in fact in each round they eliminate half the candidate)

TIPS

1 dont make eye contact with the HR person

2dont speak what the others have said say some new point(the poor guy on the last )

3u shld b grammitically correct and fluent

4always start with a welcome note like(good morning to all)

5if u r in the last try 2 conclude the discussion

6smile

(all these points carry marks ive seen there score sheet)

4tech interv

they write down the subjects from ur CV and also asks ur fav subjects

and grills u on each of these

but they ask very simple questions

(wht is CTOR DTOR VIRTUAL FUNC /DEADLOCK MUTUAL EXCLUSION STARVATON/project)

u need 2 b cool and confident

one thing 2 remember in this interv(infact in all tech interv of any company)that dont try 2 disguise

if u dont know anythin say straight that i dont know

or i can try but i dont know it exactly

4HR interview

typical but wht they expect i dont know coz this intervuu of mine was the best i ve given till date(7 intervuu/ got 3 offers)

but i wasnt selected

(i think the reason is that afetr all these rounds they take ur % or grade into consideration

coz the guy who was selected had 84% and i had 68%

but i may b wrong or another mistake that i did that i oversold myself)

(350 appeared initilly in 1st round /13 reached to HR /6 selected finally)

DECLARATION the pattern or paper might b differnt in ur college/walkin i m not responsible 4 that

the tips may or may not work 4 u

one thing more if u get offer from CSC accept it coz this company is the best(atleast in india)to work with

package is superb(we were told 25000/- pm )and u have the chance to go abroad very soon in this company

CSC is planning 2 recruit 1000 more this year(see economics times)
