

# The Valley Song

C G Am G  
You have led me to the sadness. I have carried this pain.  
C G Am G  
On a back bruised, nearly broken. I'm crying out to You.

C  
*I will sing of Your mercy*  
G Am  
*That leads me through valleys of sorrow*  
F  
*To rivers of joy.*

When death like a gypsy comes to steal what I love  
I will still look to the heavens. I will still seek your face  
But I fear you aren't listening because there are no words  
Just the stillness and the hunger for a faith that assures!

C G Am G  
*Alleluia, alleluia*  
C G Am F  
*Alleluia, alleluia*

While we wait for rescue with our eyes tightly shut  
Face to the ground using our hands to cover the fatal cut  
And though the pain is an ocean  
tossing us around, around, around.  
You have calmed greater waters.  
Higher mountains have come down.
