

Workplace Violence and Defensive Tactics Workshops

Anyone who works with the public in retail or service related fields, or supervisory personnel are at risk of Violent Assault. Unfortunately, no one is immune to the outbreak of violence.

- Real Estate Agents
- Automobile Sales & Service
- Emergency and other Medical Services
- Supervisory Personnel
- Teachers
- Councilors
- Youth Services Personnel
- Parole Officers
- Apartment Management Staff
- Executives, especially those who travel

The list is endless. There isn't anyone who wouldn't benefit from the information and skills taught in these workshops. If you are a business owner, you should consider providing your employees with these skills. If you are working for a company that doesn't offer these workshops, you should consider the investment in this training yourself, it could one day save your life.

We Can Help You!

Homeland Security Training Group is a group of Public Safety professionals with over 65 years combined experience in the fields of Law Enforcement, Firefighting, and Emergency Medical Services, bringing training and services, usually limited to these Professional fields, to the Civilian Sector.

Since 9-11-01 our nation has experienced a change. We have come to realize that if our nation is to be safe, we must all take more responsibility for our own personal safety and security. It is with this in mind that the HSTG was founded. HSTG has the unique honor and pleasure to be in a position to help U.S. Corporations, Businesses, as well as the private citizen be more prepared to provide for their own safety, and in turn, support the safety and security of our nation.

Massengill teaching a group of Undercover Police Officers

In my professional career, I have trained with many so-called experts. I can attest that HSTG and instructor Tony Massengill is the real thing! He has real world experience and the training he provides is the best I have encountered. Today you have to be careful. There are many commercial systems that offer Instructor Certification in just a two or three day training program. That means there are instructors out there with no real experience. You wouldn't want someone working on your car that had just read a manual, but had never actually seen a car. Why would you trust your self-defense training to a teacher who has no real experience? If you want real self defense skills for yourself or your loved ones, HSTG's programs are the answer.
