

12 September 2013

**Dr Eng. Jan Pająk**

**"Web pages of Jan Pająk - [landslips.pdf](#)"**

(i.e. a PDF brochure with the content of web page named [landslips.htm](#) and entitled  
**"Murderous landslips and mudslides and their links to UFOs"**

Wellington, New Zealand, 2013,  
ISBN 978-1-877458-69-9.

Copyright © 2013 by Dr Eng. Jan Pająk.

All rights reserved. No part of this brochure may be reproduced, stored in a database or retrieval system, transmitted, or distributed in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without the prior written permission from the author or a person legally authorized to act on his behalf. From the obligation of getting such a written permission are only released those who would like to prepare a single copy of this monograph for their personal use oriented towards the increase of their knowledge and who fulfil the condition that they will not use the copy prepared for any professional purpose or for accomplishing material gains, and also that they copy the entire brochure - including the title page, all items, all illustrations, and all enclosures.

Date of the latest update of the web page presented in this brochure is provided above in the top-left corner. (Note that in case of having access to several copies of this brochure, it is recommended to read the copy which has the latest date of amendment.)

This PDF brochure publishes the text of the web page authored by Dr Eng. Jan Pająk, indicated in the title of it. In turn the author's web pages are forms of fast reporting to the readers results of scientific research accomplished by the author of this brochure. The author is aware, that this research, and the results, are unique, as no-one in the entire world undertook earlier research of topics elaborated in this brochure. Therefore ideas which this brochure presents are the intellectual property of the author of this brochure. All ideas, theories, inventions, discoveries, explanations, descriptions, etc., published here, which have documentary or evidential value, are presented accordingly to standards applicable for scientific publications (reports). A special attention the author has given to the requirement of repetitiveness, i.e. that on the basis of this brochure any professional scientist or hobby investigator who would like to verify, repeat, or extend the author's research should be able to recreate his work and arrive at the same or very similar results and conclusions.

This brochure is another one from a series of similar brochures in PDF, offered free of charges to interested readers through the totaliztic web page named [text 11.htm](#) - which disseminates PDF versions of most significant and most widely read web pages by the author. The topic of this brochure is represented also in the newest [monograph \[1/5\]](#) with following editorial details:

Pająk J.: "Advanced Magnetic Devices",  
Monograph, Wellington, New Zealand, 2007, 5th edition,  
in 18 volumes, ISBN 978-1-877458-01-9.

Contact addresses to the author valid in 2013 – i.e. during the preparation of this brochure:

[Dr Eng. Jan Pająk](#)

Email: [janpajak@gmail.com](mailto:janpajak@gmail.com)

I wonder whether the reader had an opportunity to watch the strength tests carried out on stones or on samples of concrete. If so, then probably the reader remembers, that the more strong is a sample, and the more powerful forces are needed to break it, then the more loud "bang" can be heard when it breaks. For example, cracking a sample of strong stone, e.g. the size of a human finger, causes a bang as if from a rifle shot. So one can imagine how enormous forces must cause these landslides which are initiated with a bang so intense, that it deafens people many kilometres around. For such cases it can be determined, that the sole weight of soil that slides then down, do not suffice for the formation of such powerful forces. Something additional must exert these forces. Therefore, together with other items of evidence described here, the sound of such an enormous bang, which appears at the moment when a landslip or a mudslide is initiated, is simultaneously another item of evidence, which discloses that a given avalanche of mud or soil was initiated technically by a "simulation" of a UFO vehicle. (What exactly are these "simulations

of UFO vehicles" and why they appear on the Earth, it is explained more thoroughly e.g. in item #J1 from this web page, in item #L2 from the web page named [magnocraft.htm](#), in item #G4 from the web page named [god\\_proof.htm](#), and in several further totaliztic publications.) After all, natural avalanches are initiated in a complete silence, while the only sound that they generate later is a rumbling of stones and tree trunks which roll downhill (such rumbling appears also in a second stage of avalanches, the attributes of which suggest that they were initiated technically by "simulations" of UFO vehicles). The shocking thing is how many deadly avalanches in the world display attributes that they are secretly caused by "simulations" of [UFO vehicles](#) just to kill and to torment selected groups of people which live in mountainous areas. Therefore, in the interest of our understanding of truth (and thus our development of effective methods of defence) lies to learn more on the subject of these deadly landslips and mudslides supposedly initiated technically by UFOs. This web page explains and describes to us their attributes.

# **Part #A: Introductory information of this web page:**

## **#A1. What are goals of this web page:**

Many so-called "landslips" and "mudslides" display attributes which suggest that they were formed in such a manner that they display attributes as if they originate from technical activities of UFO vehicles. Therefore, on slopes of our hills and mountains we can find two kinds of these catastrophic land formations. Namely, we can find landslips and mudslides which document **(a)** a "natural" origin, and also ones which display evidence of **(b)** being formed technically by "simulations" of UFOs. Unfortunately, human science to-date has not considered nor analysed that there are two different categories of evidence documenting origins of such catastrophic land formations. Therefore all landslips and all mudslides our science so-far classified as "natural". However, realising that are more than one origin for landslips and for mudslides, introduces a whole range of implications that are to be discussed on this web page. For example, the killing kinds of mudslides which show evidence of being triggered by "simulations" of UFOs, are actually a kind of message, that the reason for their destruction was the "immorality" of people affected by them - see also items #K3 and #K4 from this web page. Therefore, the main goal of this web page is to realise and to illustrate with empirical evidence, that landslips and mudslides frequently display attributes that document more than one their origin, e.g. from the work of nature or from being induced technically by "simulations" of UFO vehicles.

In turn an additional goal of this web page is to realise and illustrate to the reader, that the existence in landslips and in mudslides several sets of attributes which indicate many different origins for these catastrophic land formations, introduces a whole array of implications the getting to know of which lies in the interest of every inhabitant of the Earth.

This web page also documents, that "landslips" and "mudslides" are the major cause for the escalation of erosion of life-giving soil in mountains, and that for this reason people should do everything in their power to stop causes for this erosion.

## **#A2. Notice that in order to concentrate of explaining matters included into the topic of this web page, a simplification was introduced which is described in item #J1**

## near the end of this web page:

This web page is devoted to the discussion of landslips and mudslides, not e.g. "simulations" of UFO vehicles, or e.g. reasons for which all more murderous "Acts of God" are always so "simulated" as if they were secretly generated by UFO vehicles - as this is explained in item #K1 from this web page, in item #C2 from the web page named [tornado.htm](#), and in items #C2, #D4, #J1 from the web page named [day26.htm](#). Therefore, in the content of this web page omitted is the full discussion of "simulations" referred in item #J1 near the end of it.

---

## Part #B: Strange attributes of Acts of God which should induce deep reflections:

### #B1. Acts of God, including into this number also deadly landslips and mudslides, destroy exclusively communities which practice the highly immoral philosophy of parasitism:

Whichever Act of God one would analyse more thoroughly from the point of view of the moral state of its victims, the outcome of these analysis always is the same. Namely, **Acts of God always kill and destroy only these communities which practice the most advanced stage of highly immoral philosophy of parasitism** - the practitioners of which do things exactly opposite to God's commandments (this stage of parasitism can be called the "agonal state"). To these readers who do NOT believe in truth of the above statement, I suggest to check what kind of philosophy was practiced by members of e.g. widely known historical or ancient communities completely destroyed by Acts of God, such as for example the island of Veneta or the city of Salamis. (Both these communities are briefly described and referred in item #15 of the web page [day26.htm](#).) Or I propose to check most recent cases of deadly Acts of God, many of which I am discussing on web pages [day26.htm](#), [seismograph.htm](#), [katrina.htm](#), and on this one.

### #B2. Every more deadly Act of God is so

**intelligently and skilfully implemented, that attributes of it simultaneously document at least 3 sets of evidence which for almost the same degree prove not less than 3 different origins of that Act of God:**

In item #K1 from this web page, in items #C2 and #K2 of the web page [day26.htm](#), and in items #C2 and #K1 from the web page named [tornado.htm](#) it is explained, and then confirmed with a significant body of empirical evidence, that every more deadly Act of God which kills a number of people, is always so intelligently implemented, that for more inquisitive researchers it makes available evidence that supports simultaneously 3 different origins of it. Namely, each such Act of God contains in itself the body of evidence that it was caused **(1)** by intelligent God, **(2)** by a "wanton element" unleashed because of the work of nature, and **(3)** technically by UFO vehicles.

Of course, each Act of God in fact can have only one origin. Thus two categories (out of all three listed above) are simply skilfully "simulated" by the same "corrective intelligence" which causes Acts of God but which wishes to remain anonymous. In part #K of this web page I am explaining this matter more comprehensively.

**#B3. The belief disseminated by atheistic science that cataclysms are acts of "blind elements" is highly dangerous - while the belief that cataclysms are intelligently served "punishments from God" is highly beneficial for people:**

The atheistic science persuades people that all disasters and cataclysms are accidental outcomes of the work of a "blind nature". As such, according to the science cataclysms supposedly do NOT depend on the "morality" of people who are hit by them, but depend on whatever is done by the entire world. Unfortunately, persuading to people such views is not only erroneous, but also highly dangerous and detrimental. After all it: **(1)** deprives people the hope and motivations to develop methods of protection from cataclysms, and also **(2)** unleashes the work of method of "God's acting" described in item #A2.2

of the web page [totalizm.htm](#) which states that "people always receive from God whatever they strongly believe in and on the basis of what they are acting" (i.e. if people believe that cataclysms are merciless acts of the blind nature, God treats them with just such cataclysms).

On the other hand, the scoffed at and persecuted by present scientists beliefs that **cataclysms are "God's punishments" served to people for "immoral" behaviours**, turns out to be immensely beneficial for humans. After all, such beliefs reveal, that cataclysms which hit a city or a community are outcomes of the "immorality" of that city or that community - means are the fault of solely inhabitants of that city or community. Thus, every city or community is solely responsible for whatever comes to it. Also, **every single city and community can easily defend itself from cataclysms, simply by changing to more "moral" its own philosophy and some of its own behaviours** - as this is recommended in items #I2 and #K4 from this web page, documented in items #I3 to #I5 from the web page named [petone.htm](#), and explained in item #C5.1 from the totaliztic web page named [seismograph.htm](#). So when people believe that cataclysms are "God's punishments", "everyone is a maker of its own fate" - also everyone must begin from himself or from herself the improvement of his or her own situation.

## **#B4. A more complete set of shocking attributes of most deadly Acts of God is indicated in "part #L" near the end of this web page:**

These most deadly Acts of God display also a whole array of further relatively unique attributes which strangely no-one seem to notice at present, nor no-one seem to discuss in public. On the other hand, these further attributes have a lot on offer for us. For example, these include early warning of communities which are to be destroyed by a future Act of God - so that these communities have time for a possible change of their immoral [philosophy of parasitism](#) onto some more moral version of the [philosophy of totalizm](#). These also include the fact, that already 10 people devoted to practicing an advanced form of the highly moral [philosophy of totalizm](#) is able to stop the arrival of an Act of God to the community amongst which they live. These more meaningful attributes of deadly Acts of God are indicated and named in part #K near the end of this web page. In there also are provided references and links to more comprehensive descriptions of these, and to evidence from which these were derived.

## **#B5. In order to increase the clarity of**

**explanations and the simplicity of deductions, this web page is so formulated, as if the third category of evidence for origins of most deadly Acts of God were NOT just temporary "simulations":**

In item #B2 I explained, that every most deadly Act of God contains attributes which document that it has simultaneously at least 3 different origins. Thus two out of three categories of these attributes must be "simulated", not real ones. In turn further descriptions from this web page which are now to follow, provide a review of evidence for the formation of deadly landslips and mudslides by [UFO vehicles](#). Of course, this evidence for their origin from UFOs is just only one amongst three categories of such attributes which can be "simulated" instead of being true. This in turn means, that the fact of such "simulation" of landslips and mudslides, as if they are formed technologically by UFO vehicles, can be proven logically. In order to carry out this proof, first we assume that the participation of UFOs in the formation of landslips and mudslides is NOT temporarily "simulated", then we review evidence which documents this participation, finally in part #K of that web page we are going to draw conclusions from the fact of existence of such body of evidence. These conclusions are to allow us to unambiguously indicate what is the true origin of deadly Acts of God discussed here that take the form of landslips and mudslides.

It is worth to notice that the topic of this web page are landslips and mudslides. But the general trends in skilful "simulation" of this kind of Acts of God as if these were formed, amongst others, technically by UFO vehicles, appear also in almost all other most deadly Acts of God. Thus, if the reader wishes to review how the same trends of "simulation" of evidence are utilised in other kinds of Acts of God, then he or she should look to related web pages, e.g. to web pages named [day26.htm](#), [seismograph.htm](#), [katrina.htm](#). or several still another such web pages.

---

**Part #C: "Landslips" and "mudslides" which display attributes that document only a "natural" origin:**

**#C1. What causes these natural**

## "landslips" and "mudslides":

Natural "landslips" and "mudslides" are cases when soil slips down a slope of a hill or mountain, caused by some natural events and propelled by gravitational forces. But it is worth to notice, that in normal conditions and cases, the soil on slopes of mountain is sufficiently stable so that such phenomena do NOT occur. Thus such "natural" landslips and mudslides must be initiated by some even or creature, e.g. by excessive rainfall, wind, or a walking animal.

**Fig. #C1: Here is a typical appearance of a mountain along slopes of which landslips (landslides) took place that display attributes which document their "natural" origins. Attributes of these landslips quite unambiguously suggest that along slopes of this mountain a natural erosion of soil initiated small soil avalanches. In New Zealand there is a plenty of sights like the above.**

But it is worth to notice, that independently from a random work of nature, the above landslips could also be intentionally initiated and brought down by God. After all, God has in His disposal the knowledge and capabilities, to precisely reflect the work of nature in His actions. Unfortunately, in order to prove the intentional causing of these landslips by God, it would be necessary to notice in them some attributes which would document the intelligent action of God - e.g. notice that while being able to kill people with different philosophies, these landslips killed only people that practice the highly immoral philosophy of parasitism that breaks God's commandments.

I photographed the above landslide in New Zealand in 2006 along highway no 6, around a half way between the cities Queenstown and Invercargill, not far from the crossing with the highway no 94 from Te Anau to Queenstown. Notice, that every natural landslide has like "sharp" initiation point at the highest section of it. This "sharpened" beginning results from the mechanism of action of gravity forces, water, and factors which initiate natural landslips and natural mudslides. In turn, as this is shown below in Figures marked as "Fig. #D1", "Fig. #E1a", and "Fig. #F1", landslips and mudslides which were induced technically by UFO vehicles, have distinct "rotations" of soil in their highest points. Furthermore, at

times of initiating such landslips or mudslides by UFOs, usually a loud bang can be heard, which does NOT appear in cases of natural landslips and natural mudslides.

\* \* \*

**Notice** that you can see the **enlargement** of each illustration from this web site. For this, it suffices to **click** on this illustration. Furthermore, most of the internet browsers that you may use, including the popular "Internet Explorer", allow also to **download** each illustration to your own computer, where it can be looked at, reduced or enlarged to the size that you may want, or printed with your own graphical software.

If one wishes to **shift** a given Figure (i.e. a photograph or a drawing) - means if one wishes to **move this Figure into another part of the screen where e.g. a description of it is located**, and when simultaneously one wishes to reduce or reconfigure the separate window in which this illustration is to appear, then one needs to do as follows: (1) click on this illustration to make it appear in another new window, (2) make sure that this new window is set for capability to be reconfigured and shifting along the screen (for this one needs to have a look at the middle square out of the three squares present in the top-right corner of the screen - this middle square should contain inside just a single screen-icon, so if there are two such screen-icons inside of it, then one needs to click on them to turn them into a single screen-icon), (3) the "downsize" or "reconfigure" this another new window (with a given illustration) through "grabbing" its right-bottom corner with the mouse and then dragging this corner upwards-left to receive the required size and configuration of this different new window (notice that since this new window is downsized or reconfigured, then it is to stay this way for all next Figures being clicked - unless one enlarges or reconfigures the window again), and then (4) drag this another new window with the Figure that one wishes to relocate, to the area of the web page where one wishes to look at it e.g. because there is a description related to it (to move the new window with a Figure, one needs to just grab it with the mouse by the blue stripe on the top of it and then drag it to the required place). Notice also that if one scrolls (with scroll-bars) the text of a page when one reads it, this another window (with the illustration) is going to disappear. In order to return it into the new position on the screen, one needs to click on its "icon" (i.e. on the "program's button" from the taskbar) in the lowest part of the screen.

---

**Part #D: The "landslips" and "mudslides" which display attributes that document their technological origin from UFO vehicles:**

# #D1. What are these landslips and mudslides formed technically by UFOs:

Motto: *In past UFOonauts were called "devils", while about devils we know that they invented thousands of manners for killing and tormenting people.*

In subsection F11.1 from volume 3 of [monograph \[1/4\]](#) is explained, amongst others, the mechanism of formation by UFO vehicles of so-called "rotations" of the soil. In turn illustrations of such "rotations" are shown on this web page - e.g. see "Fig. #D1" below, and also on a separate web page with a Polish [treatise \[4c\]](#)- see over there Figures marked as "rys. Z\_3a\_B5.6" and "rys. Z\_3b\_B5.6".

These "rotations" of the soil are formed by UFOs most frequently during angular rotating (rocking) of a circular disk of soil that is cut off from the rest of the ground by spinning magnetic circuits of a UFO vehicle (or by any other [Magnocraft-like vehicle](#)). The result looks quite similar to angular rotation of soil that surrounds roots of a tree which collapsed. The only difference is that typically no tree is going to be present in such soil rotated (rocked) by a UFO vehicle, and also that the rotated soil has a very regular shape (i.e. the shape of almost perfect circle or ellipsis). If magnetic circuits of a UFO vehicle cut off such a "rotation" of soil on a slope of hill, then in the moment when it is curved in, the stability of the ground is destroyed and a mudslide or a landslip is frequently initiated. (Note that another name for a "landslip" is a "**landslide**". For example, google.com uses the term "landslides", instead of term "landslips".) This happen especially frequent when just before this cutting of the "rotation" UFOonauts induced intense rainfalls on the same area. In mountainous terrains such technical mudslides and landslips are initiated by UFOs relatively frequent just by accidents, during careless landings of UFOs, because of ordinary clumsiness of UFO pilots, and sometimes also as a consequence of a sinister or premeditated destruction made by UFO pilots who are hostile towards people. Recently UFOonauts begin also to utilise these mudslides and landslips for intentional murdering of people and for tormenting selected sections of various societies.

**Fig. #D1: Shown is a typical appearance of circular "rotations" of the soil, formed when magnetic circuits of UFO vehicles are submerged under the ground and then rocked sideways. (In order to enlarge this photo it suffices to click on it.)**

However, it is worth to notice, that independently from being formed by UFOs, the above "rotations" could also be prepared by God, but intentionally so "simulated" as if they originate from the operation of UFOs on the Earth. After all, God has also in his disposal the required knowledge and capabilities to "simulate" precisely in his activities the existence and work of UFO vehicles - even if such UFO vehicles do NOT exist in a permanent manner. Intriguingly, in order to prove the intentional making the above "rotations" by God (i.e. not by UFOs), it would suffice to prove the same facts which in human courts are considered sufficient for proving someone's participation. For example, prove that UFO vehicles do NOT exist in a permanent manner - i.e. in the same way as permanently exist e.g. human airplanes. (Just such a proof vigorously tries to produce for us the present official human science.) Or e.g. prove, that God has both, the vital reasons to "simulate" all deadly Acts of God as if these are secretly caused by evil UFOonauts, and simultaneously God has also the required knowledge and capabilities to "simulate" the work, attributes, and behaviours of these UFO vehicles - as this work and attributes are described on web pages [ufo\\_proof.htm](#), [evidence.htm](#), or [explain.htm](#).

I photographed the above "rotations" on 8 March 2006 near the New Zealand township Culverden, Weka Pass. Please notice an ideally circular shape of such "rotations" which results from the fact that they are formed when magnetic circuits of a UFO vehicle "rock" (means slightly "rotate" in a vertical plane) the soil which is enveloped by these circuits. If such a "rotation" of the soil is formed by a UFO vehicle on a slope of a mountain which is very steep or strongly saturated with water, then it initiates a landslide or a mudslide. Such technically initiated landslips or mudslides recently are used by UFOonauts for murdering and tormenting scores of people. (Examples of secretive murdering and tormenting of crowds of people by UFOonauts, via the use of various technical capabilities of UFO vehicles which so-far remain unknown to human scientists, are described on separate web pages named "[Katowice](#)".)

Photographs taken by other authors with similar "rotations" formed by UFOs, are shown on the web page [explain.htm](#).

## **#D2. What is the mechanism of technical formation of landslips and mudslides by UFO vehicles:**

The mechanism of secretive initiation of murderous landslips and mudslides by invisible to human eyes UFO vehicles, is very simple. The illustration of basic components of this mechanism is provided on Figures below labelled "Fig. #D2"

and "Fig. #D1". Very frequently this mechanism is triggered by UFO vehicles during routine landings, just by an accident - i.e. because pilots of UFOs are slack, clumsy, lazy, or sinister. But sometimes UFOonauts trigger this mechanism on purpose and with premeditation. They do this, if they intend to secretly murder selected people with the landslide or the mudslide which is released by it. A best example of just such premeditated release of this mechanism by UFOonauts is the murderous [mudslide from the Philippine island of Leyte](#), described in item #H2 below.

If UFOonauts intend to release with premeditation a murderous mudslide or landslide, then several days earlier they cause intense rainfalls on a given area. Only later they trigger the mudslide (or a landslide). The very process of technical initiation of landslips and mudslides by UFO vehicles, is initiated through a landing of a UFO vehicle on a slope of hill from which a given landslide or mudslide is to be released later. The landing is so carried out, that the so-called "magnetic circuits" of this UFO vehicle submerge under the ground - as this is illustrated in the upper part (a) of "Fig. #D2". After submerging underground these magnetic circuits, the UFO vehicle purposely slants the angle at which it hovers in relationship to the ground. In turn this slanting causes cutting off from the remaining soil, and angular rotating, or rocking, of a circular or elliptical "rotation" of the soil. This "rotation" of the soil is simply like a hemisphere of the soil enveloped into magnetic circuits of the UFO vehicle. How it looks-like when it is located on a hill with a small angle of slopes, it is shown in photographs from "Fig. #D1" and "Fig. #E1b". If a given "rotation" is formed by a UFO on the surface of a steep slope, or on a slope which is strongly saturated with large quantities of water, than at the moment when it is formed, a landslide or a mudslide is initiated - which then comes down from this "rotation". Just such a landslide (landslide), which was initiated by a circular "rotation" of the soil from a UFO landing site, is shown in "Fig. #F1".

**Fig. #D2: Here is an illustration which explains in what manner magnetic circuits formed by a UFO propulsion system submerge under the ground.**

(This illustration represents Figure F35 from the [monograph \[1/4\]](#), in volume 3 of which a detailed description of this Figure F35 is provided.) Notice that the so-called "magnetic circuits" are simply strands of force lines of extremely powerful magnetic field formed by UFO propulsion system and running between outlets of subsequent UFO propulsors. In part (a) of the above drawing these magnetic circuits are marked as darkened ellipsis labelled with symbols (S), (M), and (C). Each one out of these symbols means a different kind of magnetic circuits. For example, in a solo flying UFO, force lines of the UFO magnetic field - which constitute magnetic circuits labelled (M), means "Main", run between the outlet from the main propulsor and outlets from all side propulsors of the given UFO vehicle. The circuit labelled (C), means "Central", in a solo flying UFO vehicle runs from one outlet from the main propulsor of this UFO vehicle, to another outlet of the same main propulsor in the same UFO vehicle. In turn numerous circuits labelled (S), means "Side", run from one outlet of each side propulsor of a given UFO vehicle, to another outlet of the same side propulsor of the same UFO vehicle. Notice however, that if solo UFOs are coupled together magnetically into more advanced flying arrangements, then the course of their subsequent magnetic circuits is more complex. In case when a UFO vehicle with its magnetic circuits submerged underground changes the orientation in space, these circuits rotate the entire soil that is enveloped into them, forming a kind of circular "rotation" shown below in "Fig. #D1". In turn, if such a "rotation" is initiated by a UFO on a slope of steep hill or a hill heavily saturated with water, then it may cause a landslide or a mudslide. Notice that parts (b) and (c) in the above illustration show how must look like the areas of soil moved and magnetically scorched - if a UFO vehicle hovers with the magnetic circuits staying motionless (b), or spinning (c).

---

**Part #E: Differences between natural "landslips" and "mudslides", and these ones caused technically by UFO vehicles:**

**#E1. What differences are between the natural landslips or mudslides, and the landslips or mudslides formed technically by invisible UFO vehicles:**

I am interested for a long time in such avalanches of mud and soil initiated technically by UFOs. The reason is that I intend to determine a set of attributes by which these technical land formations can be distinguished from natural mudslides and landslips. So now I describe which out of these attributes, and how, I managed to determine so far.

The first one out of such attributes I managed to determine many years ago, due to observation of remains of such landslips and mudslides visible on many New Zealand mountain slopes. This **first (1) attribute of technically induced mudslides and landslips, which is ABSENT in natural avalanches of soil or mud, is the existence of a typical circular or elliptical "rotation" in the initial (highest) point of the avalanche of soil or mud.** This attribute is illustrated quite well on photographs marked "Fig. #E1" and "Fig. #F1" from this web site. It is worth to notice here, that natural avalanches of soil and mud always are initiated like from a sharp initial point. Therefore their beginning in the highest point of the slope always has like a "sharp" shape. Good illustrations of these sharp beginnings of natural avalanches are shown on photographs marked "Fig. #C1" and "Fig. #E1a" from this web page.

The second vital attribute of such avalanches of soil or mud initiated technically by UFOs I determined by an accident, when around 1996 a UFO vehicle created it not far from the city Ipoh on the "expressway south-north" which leads from Kuala Lumpur to Ipoh in the mainland Malaysia. (This soil avalanche buried then around 300 meters of the expressway, killing several people who drove then along this expressway - now I wonder whether, perhaps, it was created on purpose by UFOs to kill these people.) Eye witnesses reported then, that at the moment when the avalanche was initiated (in the middle of night), a powerful bang was heard - like a blast from a large cannon or a bomb explosion. As I believe, this bang is formed when magnetic circuits of a UFO vehicle crack forcefully fragments of stones out from the bedrock of the mountain, to form from them the initial "rotation" of soil. After all, as a Mechanical Engineer I had many opportunities in my life to watch strength-tests done on samples of stones, rocks, concrete, etc. So I remember quite well, that when such a sample of rock or concrete is crushed, cut, or tensed, and thus forced to crack, it always generates a powerful bang. The cracking of a rock sample or a concrete sample thick only like a human finger, generates a bang that sounds like a rifle shot. So one can imagine how loud bang must be generated when a UFO vehicle forcefully cracks a piece of native rock sized like a UFO vehicle. Then I also watched many documentary films about natural soil avalanches and mudslides. But I never encountered an information, that the initiation of such natural avalanches is accompanied by any loud bang. All natural avalanches, landslips, and mudslides always are initiated in silence. Only after they acquire a momentum, they begin to induce a loud rumbling noise of rolling stones and tree trunks. (This rumbling noise appears also in avalanches, landslips, and mudslides induced technically by UFOs. Only that it can be heard after the initial loud bang, and the acoustics of it is distinctively different from this loud bang sounding like a cannon shot.) Therefore presently I am sure, that the **second (2) attribute of avalanches of soil and mud formed technically by UFOs on slopes of mountains, is that at the moment when these avalanches are initiated, a loud bang sounding similar to a shot from a large cannon can be heard.**

Another attribute of avalanches induced technically by UFOs can be deduced from the second attribute. Namely, the **third (3) attribute of avalanches of soil and mud formed technically by UFOs is that the initiation of such avalanches is always accompanied by a small earthquake the epicentre of which is located in the initial "rotation"**. The reason is, that when magnetic circuits of a UFO vehicle forcefully rotate and crack pieces of rocks from the bedrock of a mountain, the mountain must generate violent vibrations. In turn for natural avalanches their epicentres must be located in other places than their initial points.

One more attribute of avalanches induced technically by UFOs hits our eyes by itself, if someone looks carefully at the landslips (landslides) initiated by UFOs in mountainous terrains of practically every mountainous country in the world. As it turns out, if the slope on which a given landslip has occurred, is approximately parallel to the local force lines of Earth's magnetic field, then the "rotation" of soil which initiated this landslip has the shape of a "crescent", instead of a "circle" or an "ellipsis". Therefore the **fourth (4) attribute of landslips and mudslides caused technically by UFO vehicles is, that the "rotation" of soil which initiated these avalanches of soil or mud have the shape of circles or ellipses - if the slope of hill on which a given avalanche appeared is almost perpendicular to force lines of Earth's magnetic field, or have the shape of crescents - if the slope runs almost parallel the force lines of Earth's magnetic field**. This dependency of the shape of "rotations" and the orientation of a given slope in relationship to the local course of force lines of the Earth's magnetic field, results from the fact that the principle of operation of UFO propulsion system forces that these vehicles must always fly with their floors almost perpendicular to the Earth's magnetic field force lines. (For details see chapter F from volume 3 of the [monograph \[1/4\]](#) "The Advanced Magnetic Propulsion Systems".)

A further attribute of landslips and mudslides induced technically by UFO vehicles, results from my theoretical analyses and empirical research on these areas on Earth, where UFO vehicles have landed. After all, the "rotations" of soil from the initial points of such landslips and mudslides, in the technical sense are just "UFO landing sites". Therefore, these "rotations" (i.e. "UFO landing sites") must display all extraordinary attributes, which in subsection F11.1 from volume 3 of [monograph \[1/4\]](#) are described for landing sites of UFOs and [Magnocraft](#). (For example, the soil of these "UFO landing sites" must display magnetic, electrical, biological and chemical anomalies, which gradually disappear as time elapses.) Therefore, the **fifth (5) attribute of landslip and mudslides caused technically by UFO vehicles, is that the area of "rotation" which initiated these avalanches of soil or mud display magnetic, electrical, biological and chemical anomalies, which gradually disappear as time elapses, and which can be detected with scientific measuring equipment**. But we must notice here, that such magnetic and other accompanying anomalies are not displayed by points of initiation of natural landslips and natural mudslides.

**Fig. #E1: Comparison of differences in the appearance of natural landslips, and landslips induced technically by UFO vehicles. (Click on the selected photo to see it enlarged.)**

The landslip (landslide) shown on the upper photograph **(a)** represents a typical appearance of a slope of hill along which a natural avalanche of soil passed, caused by the erosion of the soil or the excess of water. In turn the crescent-shaped landslip shown in the central part of the lower photo **(b)** is a relatively typical example of the damage caused technically by UFO vehicles piloted very slack, or by the crew which is hostile towards people. In order to have a better look at these photographs click on them to enlarge them.

**(a - upper photo):** A natural landslip (landslide). Photographed in New Zealand on 12 March 2006 along the highway no 6 - around a half way between the New Zealand town Queenstown and the city of Invercargill, not far from the crossing with a highway no 94 from Te Anau to Queenstown. Notice, that in a manner that is typical for natural landslips, this landslip has "sharp" beginnings (located at the highest points of the slope of hill) in which this landslip was initiated.

**(b - lower photo):** A landslip (landslide) initiated technically by a UFO vehicle (this landslip is visible as a rounded "crescent" located in the centre of the photograph above.) Photographed in New Zealand on 10 March 2006, near the highway no 6

which leads from the Haast Pass to Wanaka. Please notice that the UFO vehicle which initiated this landslide was flying horizontally around the hill, only within the area captured on this photograph "landing" (or more strictly "hovering" close to the ground) by this hill at least 3 times. But only the middle landing, during which the UFO vehicle approached the ground most closely and clearly wobbled in the vertical plane, caused the crescent-shaped landslide visible in the central part of this photograph. Two remaining landings of this UFO vehicle are visible on this photograph on both sides of the landslide. The left one of these two, has the form of a crescent of vegetation scorched into a red colour. It is visible slightly towards the left over a telephone pylon from the left side of the road, some two and a half height of this telephone pole. (This left UFO landing site is located at the level of approximately corresponding to the level of the basis of the landslide from the centre of this photo.) In turn the right landing of the UFO vehicle is visible as a complete circle of the vegetation burned into a red colour. One can see it above two first trees growing on the right side of the road from this photograph, around three heights of these trees. (This right landing site of the UFO vehicle is located at the level which approximately corresponds to the level of a half of the landslide from the centre of this photo.) Please notice, that the presence of these UFO landing sites at both sides of the landslide shown on the photograph (b), and also the round (crescent) shape of this landslide, represent a conclusive proof, that the landslide in fact was initiated by a UFO vehicle. At this point it is worth to emphasize, that the crescent-like shape of the above landslide, as well as the left UFO landing site, result from the fact, that UFO vehicles fly on the same magnetic principle as my **Magnocraft** - thus UFOs have the need and tendency to always fly with their floors positioned perpendicularly in relationship to the local course of Earth's magnetic field force lines.

---

**Część #F: There are reasons why people are made to believe that various cases of destruction on the Earth, including into this also "landslips" and "mudslides", are caused technically by UFO vehicles:**

**#F1. How UFOonauts demonstrated to me the technical formation of a landslide (landslide) with the use of a UFO vehicle:**

UFOonauts were so kind, that on 9 March 2006 they demonstrated to me the

process of technical formation of just such a technical landslip by a UFO vehicle. Namely, a UFO vehicle which obviously constantly follows every my step, formed then almost in front of my eyes a sizable landslip on a steep slope of a nearby mountain. However, UFOonauts forgotten to notify me that this demo is just to occur, so I was looking then in a different direction. Fortunately, in spite that I missed the very moment of formation of this landslip, I still had an opportunity to notice the most vital characteristic details of it, especially the enormously powerful bang that was induced during this formation. The landslip, the formation of which by a UFO vehicle I saw almost with my own eyes, is shown below on the illustration marked as "Fig. #F1".

**Fig. #F1: Here is the appearance of a landslip (landslide) which was initiated almost in front of my eyes on 9 March 2006 around 1 pm, in the famous New Zealand settlement called Franz Josef (means this one which is famous from a glacier that continually "floats" downhill from top of the Southern Alps).**

At the moment when the above landslip was formed by a UFO vehicle, I heard an enormous bang. I must admit, that this bang was so powerful, that I am unable to compare it to anything that I have heard so-far in my life - i.e. it even exceeded the bang of a nearby shot from a large cannon. As I deduced by analysing later this landslip, the bang was caused by the tearing by the UFO vehicle a large lump of the native rock from the mountain bedrock. The lump was a size of an adult man. This rock one could see with a naked eye on the mountain shown here, although on the above photograph somehow it does not come out very clearly.

The above landslip was photographed from a local parking in the Franz Josef settlement, around 2 hours after it was formed. It is visible in the central area of the photograph. Please notice over there a long "tang" of freshly uncovered, grey

soil. Unfortunately, an ideal ring of "rotation" from the topmost (beginning) part of this landslip is deformed on the above photograph by shadows of nearby trees growing on the left side of it. When the next day I intended to photograph the same landslip at a different orientation of the sun, UFO-nauts brought to the area such a terrible rain and fog, that the landslip was not visible at all.

\* \* \*

Now I proceed with describing briefly, how the above soil avalanche was documented on this web page. Well, in March 2006 I travelled a bit around New Zealand. I utilised these trips as I could for researching and for documenting photographically the evidence of criminal activities of UFO-nauts on the soil of that country. Of course, during the entire my trip UFO-nauts watched me closely and even for a moment would not let me out of their sight. Also, as they only could, they make difficult for me the accumulation of the evidence and documentation on their subject. To what kind of tricks and cunning actions they resort in this holding me back - it is described in next item #G1 from this web page.

During the second week of March 2006 I participated in the research trip around the South Island of New Zealand (at that time I lived in the North Island of that country). As usual, wherever I would go, UFO-nauts send an invisible UFO vehicle to follow every my footstep. When I stayed in a tourist spot called "Franz Josef" (i.e. this famous from a constantly "flowing" glacier), the invisible for human sight UFO vehicle which constantly observed me, landed on a slope of local hill that dominated over this tourist spot. The location at which this UFO vehicle landed, was only distant by around 100 metres (as "crow flies") from the motel in which I stayed. The crew of this UFO vehicle without difficulties could observe every my movement. Shortly before 1 pm I decided to leave the motel and go to see the glacier. The invisible UFO vehicle decided to take off and accompany me in my sightseeing. However, the manoeuvre of taking off was done by the pilot so slack and clumsy, that the UFO vehicle caused the formation of a "rotation" of soil (as described earlier in item #D2 of this web page). In turn this "rotation" induced a small avalanche of soil almost in front of my eyes. In this manner the UFO vehicle demonstrated to me what exactly is the mechanism of formation of such landslips. But unfortunately, the very moment of creation of this landslip I missed to see - UFO-nauts forgot to tell me that they intend do carry out the demo of initiating it. In turn the entire event happened almost instantly - probably because of the very steep slope of this hill. When I found visually the exact spot in which the soil avalanche was created, everything was already over. The only thing that remained for me to do, was to document the remains of the landslip on a photograph. So almost the only new fact which I was able to notice from this demonstration was a really deafening bang, seconds after which there was a sound like from cracked pile of dry branches. In my life I heard a lot of loud bangs, e.g. these from cannon shots. But this bang of the initiation of a landslip in Franz Josef was louder than anything that I managed to hear in my life. Most clearly the UFO vehicle taking off managed to tear a large lump of the rock from the native bedrock of this mountain. In fact, when I visually inspected the remnants of this landslip, I noticed several grey-glossy patches on it, which most probably represented (1) the surface which was left after the tearing a lump from the native bedrock by a UFO vehicle (this patch was visible in the upper part of the circular "rotation" from the top of this landslip), and (2) two pieces of the

native rock which rolled down (these were visible in the lower part of the landslip - probably they fell lowest of all components of the rubbles). Unfortunately, probably because of the primitive photographing equipment that was used, these grey patches are not well visible on the photograph from "Fig. #F1". Unfortunately, when the remains from this demo-landslip were photographed around 3 pm, the quality of the photograph was spoiled by the location of the sun which cast shadows on the "tang" of the area along which this landslip went down. However, a next day, for which I planned photographing this landslip again with a different location of the sun, UFOonauts brought to Franz Josef such nasty rain and fog, that the mountain with this landslip stopped to be visible at all. In turn myself, I was forced to continue my trip without waiting until the weather improves (also, knowing UFOonauts, if I waited, the weather would never improve).

---

## **Part #G: Unusually misleading behaviour of "UFOonauts":**

### **#G1. Obstructions in attempts to document that on the Earth are active "simulations" of UFOonauts:**

***Motto: If we reveal a truth about someone who lives morally, the addressee feels honoured. But if we reveal a truth about UFOonauts, these aliens jump out of their skin in order to make this revealing impossible. This in turn clarifies, what kind of creatures UFOonauts are, and what kind of activities they carry out on Earth - so that they are afraid panicky to reveal truth about themselves!***

Although readers of my web pages and monographs usually are able to accept this only with huge difficulties, in fact UFOonauts even for a moment do not let me out of their sight. Thus, the characteristic buzzing of the propulsor from their invisible UFO vehicle, the smell of ozone which is generated by their **Oscillatory Chambers**, and also fast flashes (like these from photo-cameras and video cameras of spies and secret services), frequently pest me even when I go to a toilet, or when I have a romantic evening. (Which twisted behaviours of UFOonauts induce in me only disgust and pity regarding the state of their psychics, and also induce question marks about a kind of photographic documentation which their twisted propaganda secretly prepares on my subject and which probably it is going to release one day in order to hold back more effectively dissemination of the moral **philosophy of totalizm**.) Under the window of my bedroom magnetic propulsors of their UFO vehicle scorched the

grass almost to a bear soil. Unfortunately for me, UFOonauts not only carefully observe everything that I do, but also try to hold back my activities in various cunning manners. In this item I try to explain: (1) what were the most noticeable manifestations of this constant watching by UFOonauts of everything that I do, that I noted in times when the evidence presented on this web page was gathered, and also (2) how UFOonauts secretly held me back and blocked my activities.

Of course, when in March 2006 I went into my research trip around New Zealand in order to, amongst others, accumulate evidence presented on this web page, UFOonauts observed me (and held back my activities) especially intensely. After all, I gathered then the evidence for their murderous activities on Earth - which they try to hide from people so thoroughly. So if they were able to cause somehow, that I overlooked or missed the documenting of a fragment of this evidence, then I was unable to disclose their activities so effectively. So even when one day I went into an underground cave named the "Waitomo Cave", UFOonauts send over there after me a miniature UFO probe controlled by a computer, so that this probe could watch every my step. (They could NOT sent an entire crewed UFO vehicle, because in this cave "glowing worms" live. These worms would sense the presence of a large UFO vehicle and shut up their glow. This in turn would cause an alarm and induce my suspicion about a nearby presence of UFOonauts.) The UFO probe was accidentally captured on a following photograph:

**Fig. #G1a: The miniature UFO probe which followed me into the New Zealand cave called the "Waitomo Cave". (Click on a given photo to enlarge it).**

The photo from the left side **(a)** shows the entire cave which I visited then, together with the miniature UFO probe visible inside. In turn the photograph from

the right side **(b)** represents an enlargement of the same UFO probe. If such a discoidal probe controlled by a computer, is photographed in a top view (along the central axis of it), from the which side the discoidal shape of it is captured as a circular or elliptical profile, then the Western UFO researchers call it an "**orb**". After it is enlarged such UFO probes ("orbs") in a shape of circles or ellipsis reveal the presence of both, the main propulsor in the centre, and a ring of side propulsors around the peripherals - similar to magnetic propulsors which appear also in crewed (large) UFOs and Magnocraft, and thus which are described and illustrated more comprehensively in chapters F and P from respectively volumes 3 and 13 of [monograph \[1/4\]](#). If in turn such a miniature UFO probe is captured in the side view, then it resembles with the appearance a flying "rod". Probably for this reason Western UFO researchers call with the term "**rods**" such miniature, computer-controlled UFO probes captured in a side view. Examples, of photographs of such "rods" are shown on totaliztic web pages [aliens](#) and [UFO](#). In turn more detailed descriptions of these miniature UFO probes are contained in subsections U3.1.2 and F4.7 from volumes respectively 15 and 3 of monograph [1/4]. In the situation captured on the above photograph, this computer-controlled, miniature UFO probe flew in the telekinetic convention of flight. Thus, the photograph managed to capture the faint so-called "extraction glow", which is emitted because of the telekinetic slow down of its speed - for details see subsections H6.1 and L1 from volumes respectively 4 and 10 of monograph [1/4]. However, most surely I was observed by just such UFO probes since my early childhood. As a teenager I saw just such a probe moving in the magnetic convention of flight. In the appearance it resembled then to me a sizable waist watch, entirely made of gold. My visual observation of just such a miniature UFO probe I described in subsection D1 of the Polish [treatise \[4b\]](#) (unfortunately, this description so-far is unavailable in English - but planned to be translated in a near future).

Of course, immediately after on 15 March 2006 I published the photograph of the above UFO probe on this web page, UFOnuts swamped me with protests. In their emails they wrote, that it is NOT a UFO probe at all, but a "internal reflection of light in the photo-camera", and that being such a "reflection" of light, I should remove this photograph from my web page to not misinform the readers. These UFOnuts did not know, that I have more photographs of the same probe taken during the same research trip around New Zealand, and that in fact I can prove that the photograph "Fig. #G2a" conclusively show a miniature, computer-controlled UFO probe, NOT a patch of inner light reflection inside of my camera. So in order to cut all further arguments of UFOnuts of the type, that this is only a "reflection" of light, below I reproduce another photograph of the same UFO probe, which continually spied on me during that research trip around New Zealand (in total this UFO probe was captured on 2 photographs and on one video film). This further photograph of a UFO probe documents conclusively that, after all, it WAS a miniature UFO vehicle controlled by a computer, NOT a "patch" of light from an inner reflection inside of the photo-camera. Here it is:

**Fig. #G2: The photograph which provided an undeniable proof, that in New Zealand a miniature UFO probe which continually followed in my footsteps was photographed - NOT (as UFO-nauts try to convince me) just an inner reflection of light in the photo-camera. (Click on a given photograph to enlarge it)**

The evidence for the fact, that this is a UFO probe, NOT an inner reflection of light, is the location of this probe captured on the photograph when it hides between two branches. In front of the probe there is a small branch of the tree called the "monkey puzzle" - which (the branch) is visible as it overlays onto the picture of this probe. In turn behind the probe there is clearly visible another thick branch of the same tree. The point is, that in order the end of this small branch could be photographed in front of the probe, so that the enlargement of this photo clearly shows the branch overlying at the background of the probe, the probe must hide from me behind branches of this tree. This in turn means, that for sure it was NOT a reflection of light inside of the photo-camera, as such a reflection of light would impose itself ONTO the picture of the tree, and there would be no branch which would overshadow the surface of this probe. (From the dimensions of a typical branch of this type of tree it appears, that the probe was around 10 cm in diameter.)

**(a - left photograph):** An entire photograph, which in the central part captured a miniature UFO probe that constantly spied on my every step during the research trip along New Zealand discussed on this web page. It is this UFO probe that was registered photographically on three occasions. This photograph originally supposed to record an interesting kind of tree, which in New Zealand is called the "monkey puzzle". (Interesting whether UFO-nauts controlling this probe knew about the symbolic meaning of this name when they hide their probe between branches of this particular tree. After all, these UFO-nauts present to people their

miniature UFO probes flying around the Earth in the "state of telekinetic flickering", just as such "monkey puzzles".) Only after this photograph was taken, it turned out that this miniature UFO probe was captured on it.

(b - right photograph): The enlargement of the same probe captured on the left photo (a). From this enlargement one clearly can see how the branch of the tree called "monkey puzzle" overlaps over the picture of this probe. This means that the probe must hide from me UNDER this branch of the tree. Thus, in no case this UFO probe could be an inner reflection of the light in the photo-camera - as UFOonauts try to imply it. After all, such an inner reflection of light would need to impose ONTO the picture of this branch, not UNDER this picture.

## #G2. Methods of obstructions used on the Earth by "simulations" of UFOonauts:

Unfortunately, UFOonauts do not stop on the careful watching what I do. Rather opposite, on hundreds of cunning ways they try to stop me from accomplishing my goals. Therefore below I am going to list most important manners of such obstructing my activities, which hit my eyes only during the accumulation of evidence that is presented on this web page. After all, the **manners of obstructing selected activities by UFOonauts, which are described here, for sure are used NOT only on me, but also equally frequent on other people, including into this also you, the reader.** Only that other people still do not know about the existence of such secretive obstructing of their activities by UFOonauts. So when the reader begins to read descriptions below, he or she probably discovers that also was blocked or obstructed by UFOonauts in the same way at various stages of his or her life. Of course, I describe here only these manners of obstructing, which UFOonauts implemented so clumsily that I was able to notice them. Independently from them, UFOonauts use also hundreds of other manners of continuous sabotaging and obstructing my activities, which are so cunning, that sometimes I manage to identify them only after many years of studies. So here are manners of obstructing with which I was forced to put up, and through which I needed to break through, in order to prepare this web page:

**A. Obstructing through a hidden use of the evil medical knowledge of UFOonauts.** This is a favourite manner of obstructing used by UFOonauts. After all, their intentional sabotages look in this manner of obstructing just like someone's "health problems". Only a thorough analysis of these supposed "health problems" reveals, that in fact they originate from intentional infecting, or from an evil use of medical knowledge of UFOonauts. Some data on this subject is contained also on a separate web page "[plague.htm](#)".

**(A1) Induction illnesses in me during times when these illnesses obstruct most the preparation of documentation against UFOonauts.** UFOonauts love infecting me with viruses of illnesses similar to flue and cold, or with various fungi illnesses of the respiratory system. They carry out such infecting when I plan to gather this part of the documentation which requires

a fresh mind and a clarity of thinking. The participation of UFOonauts in inducing such illnesses in me, usually can be recognised firstly by the intensity of the infection and by the speed of development of the illness (i.e. in such cases UFOonauts always treat me with a "horse dose" of the infecting agent, so that the illness develops with a shocking speed). Secondly it also can be recognised by the kind of memories and feelings which remain in me after the night abduction to a UFO - i.e. the abduction during which UFOonauts infect me with a given illness (e.g. always on the occasion of infecting me with an illness, some female UFOonauts cannot resist to rape me). For example, when I was preparing the writing of this web page, UFOonauts infected me with a ghastly version of flue, which dragged until the time of finishing the writing. More on the topic of intentional infecting me with illnesses by UFOonauts is written in subsections E2 and E6 from volume 4 of [monograph \[8\]](#).

**(A2) Vicious causing such damages in my body, which make difficult and painful the preparation of documentation and the accomplishing of the goals assumed.** UFOonauts are masters of hidden torturing of people. In fact, I suspect that these were them who taught Hitler's people how to torture prisoners. Almost for sure also UFOonauts-changelings were initiators of photographing of prisoners in the prison [Abu Ghraib](#) from Iraq near Baghdad (for the first time published on 21 May 2004 by the "Washington Post"). The evil medical knowledge regarding a hidden induction of pains in people, UFOonauts in a perfect manner utilise for obstructing the accomplishment of our goals and for blocking various human activities. For example, whenever I have something to do, for which highly functional fingers are required, rapidly at nights, from no-one knows where, along the centres of my fingernails deep cuts rapidly appear. These cuts split my finger nails into two halves. The cuts cause, that any use of fingers induces powerful pains and becomes a torture. Of course, thoughtless people would suspect that these cuttings of my fingernails are cracks that originate from the lack of the E vitamin or zinc. But I know that if fingernails crack from the lack of the E vitamin or zinc, then (a) they crack in all directions - not just along the central axis of the finger, (b) cracks are not so deep (long) that they practically split the fingernail into two halves, (c) cracks do NOT appear only in the middle of nights during the abductions onto a UFO deck - but prefer to appear during a daytime work when these fingernails are bend, and also (d) these fingernails crack mainly when something is NOT right with our eating - not only when we intend to carry out a job which runs against interests of UFOonauts. In a similar manner, when I have an intention to carry out activities which UFOonauts do not like, but for which a high physical fitness is needed, then in a morning I awake with a powerful back ache (i.e. UFOonauts in the "goodness of their hearts" try to save me from the effort of completion of this work, by shifting at night my disc in the spinal cord). In the result, a next day every my movement becomes an agony. Still another kind of a "trick" UFOonauts use on me when in some matter that they do not like I supposed to walk a lot a next day. In such a case during a night abduction onto a UFO deck as a standard UFOonauts used to "bit" the muscles out from the bones under my foot (i.e. probably during a night abduction into a UFO, they used to strongly strike the sole of my foot with a big hammer). So in the morning I woke up with a powerful pain in my feet which almost refused to support me. For several next days after such a "treatment" from UFOonauts, a

walking was an agony. But when I published these descriptions, UFOonauts changed the kind of painful damage to my body. Namely, when in the first half of April 2006 I was about to work hard on the development of the internet web page "[wszewilki 2007.htm](#)", UFOonauts secretly dislocated during night my right hip joint. Thus, for around three next weeks every step I took, was for me a torture, and I was almost crying from the pain while walking. Of course, the pain inflicted upon me by UFOonauts never stops me completely, and in spite of the suffering inflicted purposely by UFOonauts, I slowly persevere and still make sure that I complete whatever I intended. Always on such occasions I am surprised by their twisted logics. After all, UFOonauts know jolly well that in spite of the pain which they inflict upon me, I still complete whatever I intended. They also know jolly well, that their sadistic actions I later describe thoroughly on my web pages or in my publications. In the result, the evil that they impose on me makes to them almost the same damage as to me.

**(A3) The induction of physical exhaustion for the duration of time when I plan the creative writing.** It is known that one cannot be creative when is exhausted physically. In turn the majority of what I do requires the creative mind. UFOonauts know this perfectly well, thus they sabotage my creativity on several different, evilly cunning manners. For example, at nights which proceed my actions that require a creative mind, they send to me cosmic prostitutes of some sort, which "have with me their wicked ways". In the result, a next morning I awake completely exhausted from the energy, and painful all over as if a tank rolled along my body last night. Simultaneously, I notice the presence on my body of all signs of being sexually violated - which are described in subsection U3.7.1 from volume 15 of monograph [1/4]. These signs indicate that I was raped during the night, and probably not just a single time. Sometimes such rapes may take place as many as 4 times a week (in spite that I have around 60 years of age, thus that the UFOonauts should allow me to get retired from their wicked ways). Another manner of bringing to me a heavy head during days when I plan creative tasks, is to deprive me of a rest at nights. With various manners UFOonauts simply disallow me to fall asleep a given night. In recent times they most frequently prevent my sleeping through directing at me a pillar of a field, or a telepathic command of some sort - which induce an extreme anxiety. In past they liked to use for the same purpose a repetitive tickling directed at ever changing parts of the skin, carried out with objects in a state of telekinetic flickering. Sometimes they resorted also to inducing rapid noises each time I fell asleep.

**(A4) Carrying out some medical "experiments" on me, about which I do NOT know what they are for, although knowing the barbarism of UFOonauts I know that are not for good.** Independently from manners of obstructing my goals via the use of evil medicine of UFOonauts, which are described above, these morally degenerated creatures from cosmos carry out on me a whole array of further medical experiments, about which I still did not discover what these are for. Here are some of them, which are repeated on me on regular basis. (a) Shooting under my skin some sort of dissolvable crystals. It is carried out relatively regular with around a month gaps between subsequent shootings. After the shooting, these crystals cause a nasty wounds of the size of average bumps from mosquito bites. After the night during which UFOonauts carry out such

shooting of a next crystal, my organism behaves as if it was poisoned. My kidneys are then in strong pain. The places these crystals are shot into, do not want to heal for around 3 months. I noticed that the favourite place where UFOonauts shoot these crystals coincide with the location of various glands under my skin. For example, they lie under my ears, in centres of my cheeks, under the chin, and also in several other places on my body. (b) The burning of square marks on my skin (most frequently the face skin). These marks look like the skin was accidentally burned due to a touch with a hot square electrode. The biggest out of these burned squares, scorched above my right cheek around 15 January 2004, has the side dimension of around 7 mm. Others have smaller side dimensions. On one of these, located under the right eye, the skin of my face was burned so strongly, that it is completely black. (c) Shooting me something under toe nails. UFOonauts carry out this every several years. Usually this finishes with a permanent damage to the nail and then with a continuous pain which later radiates from this damaged nail for many years. Recently UFOonauts did this to me with the nail from the large toe on my left foot. Although I am not able to deduce for what these medical "experiments" supposed to serve, for sure they are sources of various unpleasant feelings, wondering, and psychological uncertainty. Also I never know whether these medical experiments constitute some kind of a slow and unnoticeable sending me off to another world.

There is one curious aspect of these experiments carried out by UFOonauts, which I would like to share here. This is because I am ready to bet, that it is known by numerous other readers, who are also subjected to experiments by UFOonauts, only that they have no clue what they are dealing with. It is an extraordinary sound, which can be heard when the elapse of time for a given person is slowed down. Me personally this sound resembles a loud rustling of soft aluminium foil (type used for cooking). Other people compare it to the sound of gargling of water in gumboots during walking, or to a sound that long, wet grass produces when someone walks through it. It can usually be heard when one still sleeps but is close to awakening. After one awakens, the sound rapidly is cut off - i.e. devices of UFOonauts return a normal speed of time. If you, the reader, ever have heard such loud rustling during your sleep, this means that you are an object of experiments of UFOonauts - not that a pack of mice ravages your bedroom only at the times when you sleep. More about this extraordinary sound, including the mechanism of creating it, is described in subsection C1 from my Polish [treatise \[3b\]](#).

**B. Obstructing through a hidden use of advanced technical devices of UFOonauts, masked as acts of the nature.** This is another frequent manner of obstructing used by UFOonauts. Intentional obstructing advances of UFOonauts appear in this manner to be forces of nature, accidents, coincident, etc. Only a laborious analyses of manipulations of UFOonauts on weather, clouds, winds, action of technical devices, etc., reveals that in fact sources of this obstructing are NOT forces of nature, but intentional actions of UFOonauts. Many mechanisms used during such obstructing for mimicking forces of nature is described on separate web pages, e.g. on "[hurricanes](#)", "[tornados](#)", "[clouds UFOs](#)", etc.

**(B1) Bringing a bad weather in times when for the documentation, or for research, a sunny weather is required.** I must admit that I am impressed by the

efficiency with which UFOonauts control our weather. If they wish so, in just several hours they are able to change a sunny weather into a nasty rain and fog. The principle which UFOonauts use to control the weather on Earth is briefly described on the web page "[hurricanes](#)". In turn a detailed description of this principle is contained in subsection H5.4 from the volume 4 of monograph [1/4] (but only in volumes dated on, or after, 11 September 2005). In my own case UFOonauts use this ability to control the weather, in order to make impossible for me the documenting, or a field research, of facts which do not suit them. For example, in just such a manner they make impossible for me a second photographing (for a different positioning of the sun) the landslip shown on the photograph from "Fig. #F1". I realise that in case of other people, UFOonauts may utilise this ability to control the weather for murdering these people in a hidden manner - e.g. through causing snow falls or frost bites when with the help of UFOonauts someone gets stuck far from civilisation centres.

**(B2) The sabotaging of devices and hardware when these are needed.** If for a completion of given research or documentation I need some special device or equipment, then immediately there are problems with getting it, running it, correct operation of it, etc. The interesting aspect is always, that these problems have such a nature, that they can easily be created by UFOonauts. For example, it turns out that something rapidly disappears from the place where it is always kept, and can be found only after long searches as it is hidden in a place in which no-one would normally put it (i.e. invisible UFOonauts displace the required equipment to the place in which typically we will NOT seek it.) Or it turns out that just charged batteries are already discharged (i.e. UFOonauts are able to quickly discharge batteries by exposing them to a telekinetic field). Or in the computer the peripherals and their software refuse to work, in spite that they were tested just a week earlier (i.e. UFOonauts have in their disposal a secretly coded in the design of computer microprocessors the special so-called "sabotage loops", described more exactly in the next item below - these loops are able to change the operation of our computers and their peripherals in any manner that UFOonauts wish).

**(B3) The sabotaging of content of our computers by the use of the so-called "sabotage loops".** (With this "sabotage loops" UFOonauts can sabotage web pages that are already written and published, new publications, monographs, illustrations, documentation, etc.) In part A of a separate web page named [sabotages](#), and also in item C3 of a separate web page [FAQ - frequent questions](#), also in the blog no #18 available through the address listed below in item #11 of this web page, I explained more thoroughly the secret of the so-called "sabotage loop". This loop UFOonauts introduced secretly to the design of microprocessors in our computers. With the assistance of this loop UFOonauts without a problem are able to introduce now any changes to the operation of our computers, to the software used by these computers, and also to the files which we store on disks and in peripheral devices of our computers. Due to this loop UFOonauts can sabotage any operation, software, and any files, at thousands of different ways. Some of these ways are described on web pages [FAQ - frequent questions](#), and [sabotages](#), also in chapter C of the Polish [treatise \[7B\]](#), and additionally in subsections VB4.4 and VB5.3.1 from volume 17 of [monograph \[1/4\]](#). The most irritating out of these manners of sabotaging, are for me

personally when UFOonauts complete sabotages inside my own computer. And they do it relatively frequent - e.g. I caught them on such sabotaging this web page only several days after it was created. These sabotages are carried out with use of the "sabotage loop" described earlier. They manifest themselves most clearly when e.g. one day I complete the final version of a web page, bringing it to the level of perfection, and then I look again to this web page several days later. It then turns out, that the same web page which not long ago was working perfectly like a Swiss clock, and had error free text supplemented with clear illustrations, rapidly shows a pile of various programming errors, about which I know that they were not present earlier, and which completely spoil the operation of this web page. In turn the text of this web page contains numerous language errors and dictionary changes about which I know that earlier they were not there. Finally illustrations from this web page have changed colours, become too dark or out of focus, etc. All such cases are very irritating. After all, because of such nasty sabotages of UFOonauts, I need to carry out the fine tuning of the web page repetitively from the very beginning, knowing that everything that I do, UFOonauts will spoil again within next few days. I feel even worse, when UFOonauts delete from my computer entire fragments of texts which run against their interests, remove illustrations which discredit them, and sometimes even destroy the entire files with newest versions of my publications. One day I may have such descriptions, illustrations, or publications. Several days later these are not there any more. I dream then that one day someone manages to find and to decipher this "sabotage loop" from microprocessors of our computers, and then develop a manner in which we could successfully block it out. In this manner we would make impossible for UFOonauts the doing of such nasty sabotages.

**C. Obstructing through the creation of intellectual climate and situation of living which make impossible unhindered carrying out of research and writing.** This is another frequent manner of obstructing used by UFOonauts. Their intentional obstructing advances may appear as a bad luck, problems with work, character clashes, evilness of co-workers or superiors, etc. Again, only a laborious analyses of manipulations of UFOonauts on our living conditions and situation at work reveals that in fact sources of this obstructing are intentional intrigues and steering of UFOonauts. Many mechanisms used in such obstructing I described in subsection A3 from volume 1 of monograph [1/4]. Here are examples.

**(C1) Causing the continuous loss of jobs.** This is a manner in which UFOonauts continuously persecute me. For this reason, instead of carrying out research and publishing which are inconvenient for UFOonauts, I am continually forced to seek a next job - simply to survive. If someone looks through subsection A3 from volume 1 of monograph [1/4], and also/or subsection F1 from volume 5 of monograph [8], in fact UFOonauts so massed up my entire life, that it turned into a single long search for a new job and in fight for survival. Some data on this subject are also described on the web page [seeking job](#).

**(C2) The formation of intellectual climate on Earth, in which any knowledge that threatens UFOonauts is condemned and cannot be gathered.** For example, consider what is the real reason that people who try to research UFOs are removed from their jobs, laughed at, scoffed at, accused to be cranks, etc. Humanity is already so scared of UFOonauts, that no-one on the

position of responsibility has the courage to even loud state the word "UFO". More information about the areas of science and technology which are persecuted in this manner by UFOnavts, is listed in subsection VB5.1.1, from volume 17 of monograph [1/4].

\* \* \*

If on our planet someone is constantly watched, and systematically prevented from doing whatever he or she wants - especially it is make impossible for him or her to leave the area at which he or she is enslaved, then usually such a situation is called **imprisoning**. After all, these are imprisoned people who are constantly watched by guards, who are not allowed to leave a given prison, and about whom it is make sure that they do not do whatever they could wish to do. So it is not an allegory if we state that the **entire humanity for thousand of years is imprisoned by UFOnavts**. In turn e.g. the obstacles build up by UFOnavts against the construction of our **Magnocraft**, and described on web pages of totalizm, are the evidence of this imprisoning of humanity.

It is a common knowledge, that nations the civilisational advancement of which is higher, treat their prisoners better. In turn when this advancement is falling down, the treatment of prisoners worsens. In some cases the advanced nations even grant to their prisoners various legal rights - e.g. see the Geneva Convention, or Human Rights. So how UFOnavts treat the humanity which they imprisoned. Well, worse than it is done by even the most degenerated and barbaric nations on Earth. In fact human prisoners of UFOnavts do not have any rights. UFOnavts murder them, torture, exploit, rape, torment, and persecute on every possible ways which only come to their twisted minds. Our imprisonment has also no final date - so we supposed to be enslaved and tormented infinitively. Thus, let us now draw appropriate conclusions from the fact that UFOnavts deprived us all rights, so that one day, when UFOnavts finally come out from the present hiding and begin to pretend that they are angels, we will then know exactly what stand we should take towards them. Well, the first such conclusion is that this behaviour of UFOnavts indicates with what kind of "relatives" we are dealing. After all, the atrocities which UFOnavts commit on us do not allow to measure nor even imagine the depth of barbarism and evilness which UFOnavts already accomplished. A second conclusion is that such a treatment clearly discloses, that we must NOT rest until we throw out these evil UFOnavts from our planet. The third conclusion warns, that we must continually be beware of them, and always look them at hands. Furthermore, it reveals also what else we should expect from such our cosmic "relatives" - means that we cannot be surprised when they again cheat us, push a knife in our backs, when they will lie to us, when they will publicly condemn and smear totalizm and my research which try to disclose their atrocities, etc., etc.

---

## Part #H: Examples of catastrophes caused by UFOs:

# #H1. Examples of intentional formation of mudslides or landslips by UFO vehicles in order to scare or exterminate large numbers of people:

Motto: *When a landslide is initiated with a tremendous bang, then it is not natural, but technically induced by a UFO.*

UFOonauts have this nasty habit, that everything that can be accomplished by their invisible UFO vehicle, they utilise for purposeful spreading of fear amongst people, and for systematic extermination of humanity. Of course, as such tools of destruction also the ability of UFO vehicles for technical forming of landslips and mudslides is frequently utilised. So let us now describe examples of cases, when UFOonauts in fact murdered crowds of people, by using just such intentionally induced mudslides and landslips.

## #H2. Inducing by UFOonauts a murderous mudslide on the Philippine island of Leyte (17 February 2006):

On Friday, 17 February 2006, at 9 am local time, on the Philippines' island of Leyte (675 km on the south-east from Manila), a huge mudslide appeared which buried an entire village named Guinsaugon. On the basis of what I already know about methods of action of UFOonauts, and also what I know about characteristics of technical devices that UFOonauts use, it is absolutely sure for me, that this Philippines' mudslide was created on purpose by UFOonauts, as a part of their current campaign of scaring and tormenting humanity. Here is listing of the most vital evidence which documents the direct involvement of UFOonauts in this next atrocity committed on humanity.

**(i) The presence in this Philippine mudslide of all attributes which characterise avalanches induced technically by UFOs.** The three first attributes of technically induced avalanches, as explained previously in items #E1 and #L1 of this web page, were clearly confirmed by news from the crime scene of this atrocity of UFOonauts. Means, news confirmed: (1) the presence of a circular "rotation" in the initiation point of this Philippine mud avalanche, as well as (2) a loud bang - as if from a cannon shot, heard at the moment of the initiation of this mud avalanche, and (3) the location of the epicentre of an earthquake in the "rotation". And so, the circular "rotation" in the initiation point was visible on films from this mudslide, which (films) were broadcasted in television news. The loud bang was reported by numerous eye witnesses. In turn,

the fact that the epicentre of a small earthquake induced by the cracking of rocks was located inside of the "rotation", was obvious from reports, that witnesses firstly heard the loud bang, then they heard rumbling of the avalanche, and only at the very end they felt how the earth was shaking. It is worth to add here, that from the point of view of the theory of probability, it is impossible that all three such untypical attributes appeared in the same mudslide just by a pure coincidence.

**(ii) Intelligently controlled rainfalls which "watered" the area of planned mudslide.** In addition to all this, two weeks before the mudslide, the area of this island was drenched with powerful localised rainfall, which was persisting until the moment when the mudslide appeared. It is reported, that during 2 weeks around 680 mm of rain fell. These rains looked exactly as if they were created over there on purpose by an advanced technology of UFOnavts. For example, rained exclusively in the designated area and there was no rain in the neighbourly islands. Furthermore, immediately after the mudslide was induced, the rain rapidly stopped and sunshine appeared (after all, UFOnavts did not have a reason for further continuation of the rain).

**(iii) Evidence of the use of advanced technology of UFOnavts present on the crime scene.** One such evidence is, that UFOnavts used again in Philippines their old trick with the "deleting of SMSs" (this trick is described more extensively in item #4 from the web page [better humanity](#)). In a very sad article[DP5] entitled "Mudslide text messages: 'We are alive. Dig us out.' ", which was published on page A1 of the New Zealand newspaper "[The New Zealand Herald](#)", issue dated on Monday, February 20, 2006, one of teachers buried alive in the local school sent just such (SMS) text message to her mother, Pamela Tiempo. Furthermore, several children also buried alive in buildings of the school, posted similar text messages to their parents. But in order to make impossible the tracking of the location of this school, and thus to make impossible saving the children, UFOnavts deleted all these messages. Furthermore, they also blocked the arrival of further messages of this type. Only UFOnavts have the technology and know-how to implement such deletions and blocking of SMSs in Philippines.

The first description of this Philippine mudslide which got into my hands was in the article [DP6] "Mudslide kills hundreds" published on page A1 of the New Zealand newspaper "[The Dominion Post Weekend](#)", issue dated on Saturday/Sunday, February 18-19, 2006. Further reports and interviews with eye witnesses, and also pictures of it, were broadcasted in all New Zealand TV news on Saturday, 18 February 2006. In the article [DP6] was written, that in the result of it, over 500 homes were buried, in which for sure died at least 200 people, while further 1500 was considered to be missing. In turn TV news reported, that the number of victims reached around 3000 people - in this only in a local school died around 300 children. Further 300 women died in the hall of that village, where a women's conference just was held. (It is possible that UFOnavts arranged this tragedy only because they wanted to assassinate a woman which was inconvenient for them, and about which they knew that she will be present on this conference. This is because their typical way of assassinating looks just like this.) To what kind of revolting and cunning methods of murdering UFOnavts are resorting lately. It is difficult to believe that so evil creatures are close relatives of humans.

### #H3. The technical inducing (by a UFO) a scary landslip in the New Zealand settlement of Lower Hutt (7 August 2006):

On Monday, 7 August 2006, around 9 pm, some inhabitants of the New Zealand settlement of Kelson from Lower Hutt near Wellington were alarmed by a loud bang. After they rushed to see what happened, they noticed that a slope of a hill, on top of which stood several houses, a circular landslip appeared at Kelson No 6. The landslip looked as if the hill was bitten by a giant jaw. The bang which alarmed these people does not appear during natural landslips. It is characteristic just for landslips induced technically by UFO vehicles. (In this case by a UFO type K7, because the diameter of the circular landslip was around 49 meters.) The description of the actual appearing this highly meaningful noise is provided in the article "Huge bang and roar" published on page A1 from a New Zealand newspaper "[The Dominion Post](#)", issue dated on Wednesday, August 9, 2006. In this article also a photograph of the landslip is published. But because this photograph was taken from the frontal view, it does not illustrate well the characteristic half-circle shape which results from the fact that the landslip was initiated technically by magnetic circuits of a discoidal UFO vehicle. Much better photograph, which actually show this characteristic rounded shape of the landslip, is published on page A3 of a next edition of the same New Zealand newspaper "[The Dominion Post](#)", issue dated on Thursday, August 10, 2006. About the same noise writes also vaguely an article published on page A1 from another New Zealand newspaper, "[The New Zealand Herald](#)", issue dated on Wednesday, August 9, 2006. (This article also contains a photograph of this landslip, only that it was taken from the least illustrative direction.) Of course, someone could ask why UFOonauts induced technically this landslip from Lower Hutt. I personally believe that their aim was to additionally enforce the atmosphere of scare and uncertainty, caused by various economical problems and climatic disasters which shortly before that time affected the country.

This soil avalanche from Lower Hutt was only one amongst tens of similar landslides from New Zealand induced technically by UFOs in months July and August of 2006. At that time in New Zealand were days, when several such landslides appearing in the same day, not just a single one, could even be reported in TV news. Another such a scary avalanche of stones and soil was induced on Sunday, 13 August 2006. It slid onto the wall of an occupied house from the suburb Sumner in city Christchurch. In television news broadcasted on that Sunday, the owner of the house on the wall of which this avalanche stopped, reported that he firstly heard a very loud bang which initiated the avalanche, and only then he heard the rumble of rolling stones. But in the article "Falling boulders smash family's dream" which about this particular landslide was published in the New Zealand newspaper "[The New Zealand Herald](#)", issue dated on Tuesday, August 15, 2006, page A7, for some strange reason there is no word about this

loud bang. It is pity. After all, the information about this bang perhaps would cause, that someone from New Zealand who would read this explanation here, would send to UFOonauts the karma for this tormenting of their country with plague of landslides. After all, only when people are able to mobilise themselves to send karma to UFOonauts for everything that UFOonauts cause on Earth, this tormenting of humanity may finally stop.

\* \* \*

In the light of facts described here, significant for us becomes the sensitivity to signs that UFOonauts prepare a next such murderous avalanche in our vicinity. Furthermore, important is also the ability to choose correctly the moment and direction of our escape. After all, many amongst us live in areas endangered by such avalanches of mud or soil. Also almost everyone periodically stays or drives through such areas. The first warning sign, that UFOonauts prepare somewhere just such a landslip or a mudslide, are rainfalls lasting many days and focused just on a given area. In turn a sign, that an avalanche was just triggered (and thus also a sign to undertake a fast escape) is this loud bang. But the most difficult is the choice of a correct direction of escape. After all, such avalanches are very fast. Thus there is only a chance to escape from it, if one manages to either leave fast the path which this avalanche is to follow, or climb something very strong that is not going to be flashed by it nor sunk into it.

## **#H4. The mudslides from towns Teresopolis, Nova Friburgo and Petropolis in Brazil, on Thursday, 13 January 2011:**

On Thursday, 13 January 2011, soon after the midnight, inhabitants of towns named Teresopolis, Nova Friburgo and Petropolis, which are located to the north from Rio de Janeiro in Brazil, were hit by deadly mudslides that rushed from the mountain that towered above the towns. These mudslides swept from the surface of Earth the majority of houses of the towns. A lot of people have died - estimated at over 600. In my opinion the most meaningful report from that tragedy was contained in the article entitled "Buried alive by mudslides" from page B1 of newspaper "Weekend Herald", issue dated on Saturday, January 15, 2011. It presented, amongst others, the photograph of a church from "Teresopolis", by the frontal doors of which passed the deadly mudslide. But in spite of destroying the majority of houses of that town, the church from "Teresopolis" was left standing - just only slightly dirtied. In this way the church yet another time confirmed my findings summarised in item #B2 of the totaliztic web page named [seismograph.pl.htm](#), that "God gives to believers the 'sign' where a given cataclysm comes from, by leaving untouched objects of cult which fulfil the set of God's requirements". Photographs of churches spared by these deadly mudslides from Brazil and standing in very centre of destructions, in January 2011 one could see on the Polish web site from the address [http://angelus-silesius.pl/articles/powodz\\_brazylia.html#zdjecia](http://angelus-silesius.pl/articles/powodz_brazylia.html#zdjecia)).

Another "sign" from God that suggests why, amongst others, these particular towns were hit with mudslides, are their names. These names can be interpreted as references to holiness. For example, names "Teresopolis" and "Petropolis" can be interpreted as linked to Saint Theresa and Saint Peter. In turn the name "Nova Friburgo" can be linked to pope - see item #F1 on the web page [prophecies.htm](#). On the other hand, having "holy names" imposes certain obligations at inhabitants - according to the old Polish saying that "the nobility obliges". In this way God lets us to know that **"if you live in a place with a holy name, you should behave as appropriate for an inhabitant of such a place"**. Most clearly inhabitants of these towns joined a list of places already "punished" by God for "behaviours that are NOT appropriate to the holy dedication of the name at which they have". Other places already "punished" in the same manner include: Christchurch from New Zealand - described in items #C5 and #C5.1 from the web page named [seismograph.htm](#), and "Concepcion" (from "Immaculate Conception") from Chile - described in item #F3 from the web page [day26.htm](#). (Notice that three such cataclysms in a row are too many to consider these to just be "coincidents".)

---

## **Part #I: Why the escalation of "landslides" should worry us:**

### **#I1. Teams of "tree assassins" - means the secret behind turning the fertile, green and teeming with life slopes of New Zealand mountains into lifeless, dry, and dead landscape of catastrophic soil erosion:**

When soon after the emigrating to New Zealand in 1982, I travelled through this beautiful country then ruled by a wise and far-seeing politician named Sir Robert Muldoon, I could not get out of amazement over the beauty of its mountains - at that time covered with fertile soil and lush vegetation. But when I went into similar trips in times when this capable leader was pushed out of the power, I could not overcome my shock and surprise over the speed and scale of a rapid erosion and devastation of soil and vegetation at these mountains. It was just this rapid erosion and devastation that motivated me to seek reasons for such a state of things - thus fruiting later in writing this web page. Instead of slopes of mountains still covered with lush vegetation, in these later trips

everywhere in New Zealand started to scare onlookers numerous slopes that were naked, barren, deprived the vegetation, and covered with the shocking number of natural landslides - in many cases looking even much worse than the landslides shown in "Fig. #C1" below. For example, during my trip in 2008, practically in the entire country I could NOT find a point on the road from which I could see some New Zealand mountains that would NOT be covered with huge landslides and with barren, deprived of life, rock rubbles which such landslides leave behind. To be honest, out of all countries in the world through which I travelled in my life, New Zealand displays at present the largest erosion of slopes of its mountains. In no other place in the world I saw such massive and so fast progressing erosion of the fertile soil and vegetation that occurs on slopes of mountains. And as I explain this in my [autobiography](#) - I travel quite a lot over the world. At the initial stage of my research I suspected that this erosion of the New Zealand mountains is caused by UFO vehicles landing on slopes of these mountains - under just such an angle I initially prepared the main thesis of this web page. But then I established, that the contribution of UFO landings to this erosion is minimal - the majority of the landslides is caused by a fast deforestation of slopes of these mountains. No wonder, that tracing this rapid erosion and devastation combined with the deforestation of mountains, which initiated only after the pushing Sir Robert Muldoon out of power, I started to wonder what link can exist between the politics of governments which took power after this exceptional leader, and so rapid escalation of the erosion of soil and destruction of vegetation in mountains of the country.

This puzzle of the link between the politics and erosion of slopes of mountains, accidentally solved itself a couple of years after I prepared the first version of that web page. Namely, during viewing a television I accidentally saw then a documentary program about a team of "tree assassins". As stemmed from this program, in New Zealand a government established, i.e. employed and financed, special "teams of tree assassins" equipped in powerful chainsaws and in good means of transport (in some cases even in helicopters). These teams do nothing else but inspect mountains of the country and intentionally cut down every tree that they encounter as growing on slopes or tops of these mountains. They remain active in New Zealand until today. In the result of their activities, the forestation of mountains in New Zealand is eliminated, and in this way also the erosion of slopes of these mountains is escalated. After all, in order to eliminate the erosion of slopes of mountains, these slopes would need to be having forests (instead of being barren) - so that their soil would be bounded with tree roots. Immediately after seeing this program I searched in libraries whether I can find something written on the subject of these teams of "tree assassins". Unfortunately, I found nothing. Intriguing is for me, whether the lack of information on their subject is caused by the fact that someone prefers to keep their existence as a kind of "guilty secret"?

In a couple of years after this first television programme about teams of such "tree assassins", I accidentally saw again a brief mentioning of their existence. Because of the lack of written information on them, I decided to notice at least broadcasting data of this second report. It was broadcasted within the evening news on channel 1 of TVNZ, on Friday, January 8, 2010, from 6:00 to 7:00 pm. In this second report it was bragged that these mysterious "teams of tree assassins"

obtained a new "weapon" in their fight against forestation of mountain slopes in New Zealand. This "weapon" turned out to be poisonous chemicals similar to the "Orange Agent" - used by Americans in Vietnam (see item #F2 from the totaliztic web page [about activities of UFOonauts on the Earth](#)). So starting from that time, these teams of "tree assassins" not only are able to hold back and to eliminate the forestation of mountains in New Zealand, and thus to escalate the process of erosion of its soil, but in addition are also able to poison the soil so that next generations of inhabitants of the country will NOT be able to plant any forests on it.

**#I2. People are able to stop the appearance of natural catastrophes such as murderous "landslips" and "mudslides" described here - it suffices that they understand "why" these catastrophes take place and eliminate the reasons:**

Because the universe is ruled by wise and omnipotent **God** (which fact is proven formally in items #B1 to #B3 from the web page named [changelings.htm](#)), all natural catastrophes have their reason and justification. The reason and justification for all natural catastrophes is already explained in items #B1 to #B5 of the totaliztic web page [seismograph.htm](#) and on the entire web page [day26.htm](#). It is the arrival of inhabitants of a given area to the very dangerous and infectious state of so-called "agonal intellect" in their practicing of the highly immoral and destructive philosophy called [parasitism](#). Thus, **stopping the appearance of all natural cataclysms on the Earth is very simple - suffices that endangered communities eliminate their immoral behaviours**, means that instead of practicing this dangerous and infectious philosophy of parasitism - the spread of which God is halting just with the use of such natural cataclysms, inhabitants of a given area start to practice the highly moral philosophy of [totalizm](#). Another highly effective manner of stopping cataclysms is described in item #K4 below.

---

**Part #J: UFOs and UFOonauts hide a highly puzzling mystery about which is worth to**

**know:**

**#J1. Although for people confronted with UFOs and UFOonauts these appear to be permanent, as well as permanent are outcomes of their operation, in fact UFOs and UFOonauts are just temporary "simulations":**

In order to simplify explanations and to keep focused on the subject area, the content of this web page is written as if UFO vehicles and UFOonauts existed in a permanent manner - the same permanent as exist people and human vehicles. But - as this is explained on a number of other web pages, for example in item #L2 from the web page named [magnocraft.htm](#), in items #C2 and #K2 from the web page named [day26.htm](#) or in item #K1 from the web page named [explain.htm](#), both - UFO vehicles as well as UFOonauts, are just temporary "simulated" in each case when there is a need for someone amongst people to be confronted with them. Furthermore, also every present cataclysm displays "simulated" attributes and evidence, which suggest, that this cataclysm was induced technically by UFO vehicles - for more details see item #C2 from the web page [tornado.htm](#).

There is a whole array of reasons for which God "simulates" UFOonauts and UFO vehicles, as well as "simulates" permanent consequences of their operation on the Earth. An example of one amongst the most important out of these, is the need to use on people the principle of upbringing, which in item #F3 from the web page named [wszewilki uk.htm](#), is described under the name of "**principle of reversals**". This principle raises people into tough, hardened in battle, "**soldiers of God**" described more comprehensively in item #B1.1 from the web page named [antichrist.htm](#). An example of another reason is to illustrate visually to people via the evil behaviours of UFOonauts and UFOs, to what leads the technical development carried out without a simultaneous moral development. This illustrating becomes especially vital in the face of fact, that the humanity stands currently at the beginning of times when it is going to have my [Magnocrafts](#) and [time vehicles](#) in its disposal. One amongst examples of such evil illustrated to us by UFOonauts, which humans are able to spread with the use of Magnocrafts, is described in items #B1 to #B4 from the web page [evil.htm](#), and also in the content of the Polish [treatise \[3b\]](#). Still another example of the reason for which God "simulates" UFOonauts and UFOs, is the need to replace the former "devils" with some creatures, which are still able to carry out evil which "devils" used to do in past, but simultaneously which are more acceptable than "devils" for increasingly atheistic societies.

Therefore, when there is a demand for a constructive use of information presented on this web page, then it is desirable to take a correction for this shocking fact, that UFOs and UFOonauts for very vital reasons are only temporary "simulated" on the Earth.

---

## **Part #K: Mysteries and puzzles of Acts of God:**

### **#K1. Why all most deadly Acts of God display at least 3 sets of attributes which try to prove not less than 3 different origins of these Acts of God:**

The empirical body of evidence presented on this web page document sufficiently well, that most deadly landslips and mudslides are secretly formed by UFO vehicles. In turn a similar body of evidence which is presented on other web pages related to this one (e.g. see web pages named [day26.htm](#), [seismograph.htm](#), or [katrina.htm](#)) proves also exactly the same for different kinds of most deadly Acts of God. This body of evidence is also so perfectly prepared and so convincingly presented, that for example I myself was completely misled by it for entire 15 years. After all, since around 1992, until 2007, I honestly believed that these are UFOonauts who secretly cause on the Earth all these most deadly Acts of God. I also documented this my belief in the manner in which I formulated the content of [monograph \[1/4\]](#).

Independently from containing evidence for the technical origins from UFOs, practically each Act of God contains in itself also evidence that indicates its origins from a "wanton element" unleashed because of the work of nature. This category of evidence is also perfectly prepared and convincingly presented. After all, it misled the entire institution of present science, including into this almost all present professional scientists. It is because of this category of evidence, that present science and scientists started to claim that [supposedly God does NOT exist](#), while everything that happens in the entire universe is propelled and controlled by work of "wanton elements". However, it can be proven relatively easy - as I did it on the web page named [evolution.htm](#), that also this second category of evidence is just a skilful "simulation". It is provided temporarily only to direct the scientists onto an atheistic path of inquiry and research. The point is that the atheistic path to learning and research, according to explanations from item #F2 of the web page [evil.htm](#) and item #A2 of the web page [will.htm](#), is incomparably more progressive and effective than the path to knowledge selected by religious institutions.

Finally every most deadly Act of God contains also excellently hidden evidence, that it is caused by God. For example, to this category of evidence belongs the fact that Acts of God destroy and kill only communities which adopted the worst stage of practicing the highly immoral philosophy of parasitism. Another evidence for origins of such Acts of God from God Himself, is just the existence of 3 perfectly prepared and convincingly presented categories of evidence in attributes of each one amongst these Acts of God. After all, if we consider the matter thoroughly, then it turns necessary the intelligence and capabilities of God, to provide and carry out each such an Act of God so perfectly, that it contains in itself these 3 different categories of evidence. If someone does not believe, then should consider e.g. efforts of human criminals, who try to so carry out their crimes, that these indicate for culprits someone else then them. But no matter how hard they try, with the elapse of time almost always their participation is detected and proven.

The sole fact, that it is God that carries out every Act of God, is most comprehensively documented and supported with a largest empirical body of evidence, on the web page named day26.htm. That web page also contains the explanation why God "simulates" all most deadly Acts of God in such a manner that they look as if caused technically by UFO vehicles.

## **#K2. Deadly Acts of God display several repetitive attributes:**

These attributes are described in item #B2 of the web page seismograph.htm. Because these attributes are repetitive and appear in almost every deadly Act of God, they disqualify the origins of these Acts of God from random work of nature.

## **#K3. Community which for practicing immorality is to be destroyed and killed with an Act of God, always is firstly warned, that such an act is coming:**

Signs which provide a warning that a given community already has slipped down into the worst stadium of practicing the philosophy of parasitism, and thus that it is close to bringing on itself a deadly Act of God, are described e.g. in item #B7 from the web page named seismograph.htm, and also in item #H3 from the web page named quake pl.htm. These advance warnings are to provide a chance for a given community to change the highly immoral philosophy that it practices onto the more totaliztic philosophy - as this would allow God to

abandon the treating of that community with a deadly Act of God.

**#K4. Only 10 people who in a devoted manner practice the philosophy of totalizm is able to stop the arrival of a deadly Act of God to the community amongst which they live:**

How this can be accomplished, it is already described in item #I1 from the web page [quake\\_pl.htm](#), in items #G2 and #I3 of the web page [day26.htm](#), as well as in item #B6 from the web page [seismograph.htm](#), and also in items #H1 to #H2 from the web page named [quake\\_pl.htm](#).

---

**Part #L: Let us summarise what we learned on this web page about landslides:**

**#L1. Summary of differences between attributes of landslips and mudslides formed naturally, and formed technically by UFO vehicles:**

Fortunately for these ones who still maintain an open mind and the ability to think rationally, when a murderous landslip or mudslide is initiated due a purposeful action of a UFO vehicle that remains invisible to human sight, NOT e.g. due to the action of forces of nature, the landslip or the mudslide itself, and also the trail left in areas over which it went, must later display an array of unique attributes. These attributes result directly from the mechanism of technical initiation of landslips or mudslides by UFO vehicles, described before in item #D2 of this web page. Therefore these attributes never appear in natural avalanches of soil or mud formed by forces of nature. Below in this item I listed the most vital out of such attributes. Their explanation was provided before. Some of them are illustrated on photographs from this web page. I am sure that they represent exclusively these attributes, which result directly from the principle of operation

of UFO vehicles and from mechanism of triggering of landslips or mudslides by UFO vehicles.

So here is the list of attributes which should be present in landslips or mudslides initiated on purpose by UFO vehicles which hide from the sight of people. Notice that each one out of attributes listed below was reported by eye witnesses in numerous cases of such landslips or mudslides. Some of these attributes were also present in the landslip the formation of which was demonstrated for me by UFOonauts in Franz Josef (New Zealand), and which I shown on the photograph from "Fig. #F1" above.

**(i) The presence of typical circular or elliptical "rotation" of the soil in the initial point of the avalanche of soil or mud, means in the highest point of it.** Because such landslips or mudslides are initiated by discoidal UFO vehicle, in their initial (the highest) area always is present a circular or elliptical "rotation" of the soil shown in photographs from "Fig. #D1" and "Fig. #F1". In turn landslips or mudslides formed by the nature have the "sharp" entry areas, similar to these shown in photographs from "Fig. #C1" and "Fig. #E1a".

**(ii) A powerful bang similar to a shot from a large cannon which can be heard at the moment when these landslips or mudslides are initiated technically by UFOs.** When a given landslip or a mudslide is formed on slope of a stony mountain, then during the initiation of it a powerful bang can be heard. But this bang is absent when natural landslips or mudslides are initiated.

**(iii) A rapidly dumped earthquake carrying small energy, the epicentre of which is located in the "rotation" of soil from the beginning of a given landslip or mudslide.** During forceful tearing a lump of native bedrock from a given mountain, UFO vehicles induce powerful vibrations of this mountain. These vibrations are perceived just as an earthquake with epicentre located in the "rotation" of soil from a given landslip or mudslide. Unfortunately, not always eye witnesses of a given landslip or mudslide can establish where exactly the epicentre of this earthquake is positioned. After all, not always seismographs are installed on the place of such an event. Therefore, for UFO researchers it is vital to notice secondary attributes which result from this location of the epicentre. And so, in case of landslips or mudslides initiated technically by UFOs, the earthquake carries a very small energy - thus its tremors are rapidly dumped as the distance from the epicentre grows. Therefore observers who stand near a given landslip or mudslide perceive a violent earthquake. In turn observers located only slightly further away feel almost nothing. Furthermore, in case of avalanches of soil or mud induced technically by UFOs, tremors always come to each observer only some time after a loud bang can be heard and after the appearance of landslip or mudslide can be noticed. (In turn in natural landslips or mudslides, if any earthquake is perceived, then usually this earthquake is a factor which initiates the avalanche, and thus the appearance of the avalanche can be noticed only after it.)

**(iv) The dependency of the shape of a "rotation" of the soil, from the angular positioning of the slope of hill in relationship to the force lines of Earth's magnetic field.** The principle of operation of UFO vehicles has this characteristic, that it forces UFOs to always fly in positions when their floors are almost perpendicular to force lines of the Earth's magnetic field. (More exactly this matter of perpendicular positioning is explained in chapter F from volume 3 of

[monograph \[1/4\]](#).) However, slopes of hills not always are so positioned, that the UFO vehicle which flies with its floor pointed almost perpendicularly to force lines of Earth's magnetic field, has also this floor in the position parallel to the surface of this slope. Therefore, rather commonly, when force lines of Earth's magnetic field are almost parallel to the surface of a given slope, the "rotations" of soil formed on these slopes by UFO vehicles have shapes of "crescents" instead of "circles" or "ellipses". An example of just such a "crescent-shaped" rotation of the soil is shown in photograph from "Fig. #E1b". In turn this fact, that on slopes positioned almost parallel to force lines of Earth's magnetic field, given "rotation" is shaped like a "crescent", additionally confirms the technical origin of this rotation from a landing of a UFO vehicle.

**(v) The presence of magnetic, electrical, biological, and chemical anomalies in the "rotation" from the initial point of the landslide, which gradually disappear as time elapses.** (These anomalies are lacking in natural avalanches of soil or mud.) Because of the fact, that the propulsion system of every UFO vehicle generates extremely powerful magnetic field, this field always temporary changes in various ways attributes of soils and rocks exposed to it. In landslips or mudslides initiated technically by UFO vehicles, to the action of this powerful magnetic field exposed are their beginning areas, means their "rotations". Therefore the "rotations" from the initial areas of such avalanches of soil and mud, will display a whole array of unique attributes, described more exactly in subsection F11.1 from volume 3 of [monograph \[1/4\]](#). For example, soil of these "rotations" will display electrical resistance many times higher than the resistance of the surrounding soil, this soil initially will be sterilised biologically and with the elapse of time will show a tendency for getting infected with mushrooms, it will contain quite characteristic and non-typical chemicals, etc. Therefore, through scientific researching of this soil, and through comparing its properties with these of the surrounding soil, it can be conclusively confirmed, that a given avalanche of soil or mud in fact was initiated by a UFO vehicle. Notice however, that these anomalies gradually diminish with the elapse of time, and that the detection of some of them requires specialised measuring equipment. Therefore, they should be measured fast after a given "rotation" is formed, and also it is necessary to use on them scientific measuring equipment. More on their topic is provided in the abovementioned subsection F11.1 from volume 3 of monograph [1/4].

---

**Part #M: The final information of this web page:**

**#M1. Summary of this web page:**

Through presenting the documentation gathered on this web page, the author hopes that he managed to open the eyes and mind of the reader to a complexity of the problem of destruction of the natural environment and also to

catastrophes caused by this destruction.

## **#M2. Where one can familiarise oneself with the newest course of events concerning landslips, mudslides, collapses of buildings and other atrocities committed on people by UFO-nauts:**

Current news regarding events in all matters from the area of interests of the philosophy of [totalizm](#), are currently presented in the so-called "blog of totalizm". So this is the blog where one can learn the newest developments on all matters concerning the philosophy of totalizm. At the time of preparing this web page, the "blog of totalizm" was accessible under the address [totalizm.blox.pl/html](http://totalizm.blox.pl/html) (i.e. in order to view it either click here on the "green" address which links this web page with it, or write the address <http://totalizm.blox.pl/html/> in the addressing window of your own browser).

Blog of totalizm has also a mirror copy. At the time of preparation of this web page this copy was still working at the addresses [totalizm.wordpress.com](http://totalizm.wordpress.com).

## **#M3. How with the use of web page named "[skorowidz\\_links.htm](#)" one can find totaliztic descriptions of topics in which he or she is interested:**

A whole array of topics equally interesting as these from the above web page, is also discussed from the angle that is unique to the philosophy of totalizm. All these related topics can be found and identified with the use of [content index](#) prepared especially to make easier finding these web pages and topics. The name "index" means a list of "key words" usually provided at the end of textbooks, which allows to find fast the description or the topic in which we are interested. My web pages also has such a content "index" - only that it is additionally supplied in green [links](#) which after "clicking" at them with a mouse immediately open the web page with the topic that interest the reader. This content "index" is provided on the web page named [skorowidz\\_links.htm](#). It can be called from the "organising" part of "Menu 1" of every totaliztic web page. I would recommend to look at it and to begin using it systematically - after all it brings closer hundreds of totaliztic topics which can be of interest to everyone.

## #M4. I would suggest to return periodically to this web page in order to check further descriptions of landslips and mudslides murderously triggered by UFO vehicles:

In order to keep checking how is going to develop the matter of disclosing by the philosophy of totalizm the atrocities committed on humanity by UFOnavts, and also the matter of our self-defence against continuous attacks of UFOnavts, it is worth to return periodically to this web page. By the definition, this web page is going to be improved and extended further, as soon as a possible contribution from readers, and also the incoming wave of events on Earth, is going to influence the people's perception of UFOnavts, or cause a next action in matters described here. So if in the future, you wish to learn what further deadly landslips and mudslides UFOnavts triggered, or what further attributes of these landslips and mudslides was possible to identify, then visit this web page again. I am going to systematically update the content of this web page, as the development of situation brings some new events worth reporting.

## #M5. Emails to the author of this web page:

Current email addresses to the author of this web page, i.e. officially to Dr Eng. Jan Pajak while courteously to **Prof. Dr Eng. Jan Pajak**, at which readers can post possible comments, opinions, descriptions, or information which in their opinion I should learn, are provided on the web page named pajak\_jan\_uk.htm (for its version in the HTML language), or the web page named pajak\_jan\_uk.pdf (for the version of the web page "pajak\_jan\_uk.pdf" in safe PDF format - which safe PDF versions of further web pages by the author can also be downloaded via links from item #B1 of the web page named text 11.htm).

The author's right for the use of **courteous** title of "Professor" stems from the custom that "with professors is like with generals", namely **when someone is once a professor, than he or she courteously remains a professor forever**. In turn the author of this web page was a professor at 4 different universities, i.e. at 3 of them, from 1 September 1992 until 31 October 1998, as an "Associate Professor" from English-based educational system, while on one university as a (Full) "Professor" (since 1 March 2007 till 31 December 2007 - means at the last place of employment in his professional life).

However, please notice that because of my rather chronic lack of time, I **reluctantly reply to emails which contain JUST time consuming requests**,

while simultaneously they document a complete ignorance of their author in the topic area which I am researching.

## **#M6. A copy of this web page is also disseminated as a brochure from series [11] in the safe format "PDF":**

This web page is also available in the form of a brochure marked [\[11\]](#), which is prepared in "PDF" ("Portable Document Format") - currently considered to be the most safe amongst all internet formats, as normally viruses cannot cling to PDF. This clear brochure is ready both, for printing, as well as for reading from a computer screen. It also has all its [green links](#) still active. Thus, if it is read from the computer screen connected to internet, then after clicking onto these green links, the linked web pages and illustrations will open. Unfortunately, because the volume of it is around a double of the volume of web page which this brochure publishes, the memory limitations on a significant number of free servers which I use, do NOT allow to offer it from them (so if it does NOT download from this address, because it is NOT available on this server, then you should click onto any other address from [Menu 3](#), and then check whether in there it is available). In order to open this brochure (and/or download it to own computer), it suffices to either click on the following green link

[landslips.pdf](#)

or to open from any totaliztic web site the PDF file named as in the above green link.

If the reader wishes to check, whether some other totaliztic web page which he or she just is studying, is also available in the form of such PDF brochure, then should check whether it is listed amongst links from "part #B" of the web page named [text 11.htm](#). This is because links from there indicate all totaliztic web pages, which are already published as such brochures from series [11] in PDF format. I wish you a fruitful reading!

## **#M7. Copyrights © 2013 by Dr Jan Pajak:**

Copyrights © 2013 by Dr Jan Pajak. All rights reserved. This web page is a report from outcomes of research of the author - only that is written in a popular language (so that it can be understood by readers with non-scientific orientation). Ideas presented on this web page (and also in other publications by the author) are unique for the author's research, and thus from the same angle these ideas were NOT presented by any other researcher. As such, this web page presents ideas which are the intellectual property of the author. Therefore, the content of this web page is the subject to the same laws of intellectual ownership as every

other scientific publication. Especially the author reserves for himself the credit-rights for the scientific discoveries and inventions described on this web page. Therefore, the author reserves that during repeating any idea presented on this web page (i.e. any theory, principle, deduction, interpretation, device, evidence, proof, etc.), the repeating person gives a full credit to the author of this web page, through clearly explaining that the author of a given idea is Dr Jan Pajak, through indicating the internet address of this web page under which this idea was published, and through mentioning the date of most recent update of this web page (i.e. the date indicated below).
