Adams, Don - Aldrich, Patricia

Lesson 6

This graphic will stay on the left as we will put text on the right. It should show that halloween is not a crazy day. It really is just a day the kids have fun and walk at night in the rain. When you go out as an adult, you will see that the evening can be fun also. Adults can be just as imaginative as children when it comes to costumes.

Adams, Don - Aldrich, Patricia - Allen, Emery - An

## Lesson 7 part 2

### **Register so we can find you when the Reunion Committee convenes.**

To register, click the link below and find yourself. If you are not listed, click to Add your name. Enter a password to keep people out of your private Profile information. The address and phone number will never be shown. You have the choice to show your city of residence and your Email address. Showing the Email address will provide a way for classmates to contact you, but that is your choice. The BIO will show to visitors of your page. Please enter something but remember that the world can see it. If you need help, see the Assistance section.

## Lesson 8a

### The Cheetah.

The cheetah (*Acinonyx jubatus*) is an atypical member of the cat family (Felidae) that is unique in its speed, while lacking climbing abilities. As such, it is placed in its own genus, *Acinonyx*. It is the fastest land animal, reaching speeds between 112 and 120 km/h (70 and 75 mph)[3] in short bursts covering distances up to 460 m (1,500 ft), and has the ability to accelerate from 0 to 110 km/h (68 mph) in three seconds, greater than most supercars. The word "cheetah" is derived from the Sanskrit word *chitrakaya*?, meaning "variegated body",
