It gives me great pleasure to provide this UNSOLICITED testimonial for Lionel Hartley, PhD.

After having read and used Dr Hartley's seminar literature, (especially his practical concepts in the support of the bereaved) for a number of years now, it was my great pleasure recently to work with him in person as a colleague in seminar presentation. Although we had not met before, his wealth of knowledge and intuitive understanding of the practical needs of the seminar participants certainly matched with what I had read about him and what I had found in his books. I am writing this to recommend that the reader either attend a seminar of his, or at least read one of his books. You will indeed be blessed, as I was working alongside him.

Hilda des Arts, PhD
