SYNERGY AND
EMPOWERMENT

Who We Are

The International Gurukul (IG) is a non-profit organization based in California, USA. It is working to bring together people from diverse cultures and ethnic background to promote social learning and human development. Its membership is open to all communities and faiths.

In ancient India Gurukuls used to be residential complete learning centers wherein the Gurus (Teacher-Guides) and the Sishyas (Student-Learners) were living together. Training in life-management challenges used to be the focus along with spiritual learning.

Our Mission

Our mission is to enhance inner potential, synergy, empowerment, creativity and personal excellence among **children, youth and families.**

We create unique, unconventional and interactive learning opportunities through yoga, dance, music, drama, workshops and promote learning world culture together for making this life a unique journey of happiness and harmony.

“You must be the change you wish to see in the world.”
– Mahatma Gandhi

Our Beliefs & Faith

We hope that the new century and the new millennium would knit together a new Socio-Spiritual fabric, a new humanism wherein spiritualism strengthens the soul, science and technology serves the body and mind and a composite global faith reunites the people.

Our Approach
