

## **Urban Functions**

(Perspectives pg206-207)

1. Describe the difference between Basic Activities and Non-basic activities.

2. a. Draw figure 6.5b.

b. Give two reasons to explain why the number of functions increases.

## **Urban Land Uses**

(Perspectives page 210-213)

1. The competition for land means that those with the greatest ability to pay are located in the most accessible locations. (Draw figure 6.7b).

- a. Why do residential land uses dominate further from the CBD?
  
- b. Why do retail businesses dominate closest to the CBD?
  
- c. Explain why commercial activities can afford high location costs while residential uses cannot.

2. For each of the following land uses identify 2 characteristics that would be desired and 2 characteristics that would be considered undesirable.

<b>Land Use Type</b>	<b>Desirable feature</b>	<b>Undesirable feature</b>
Recreational	- many trees - clean waters	- shopping area nearby - large manufacturing plant (smells)
Residential		
Industrial		
Commercial		

3. Figure 6.7h is an example of a simple land use map for Fredericton. Create a similar land use map for Prescott.
