

Ecological Footprint Web

Construct a web diagram for ecological footprints, that includes 14 positive impacts and 14 negative impacts we have on the environment. Positives and negatives are to be in different colours. The central title needs to be creative and a graphic used that represents the title. In addition there are to be 10 or more graphics representing the positives and the negatives.

Title	/7
14 positive impacts	/14
14 negative impacts	/14
Graphics	/10
Neatness/Completion	/5
