

Landforms in Canada

(Perspectives page 8-9)

1. Describe each of Canada's 3 main landform types.
Shield

Plains

Mountains
2. Draw and label a cross section of Canada to illustrate the shape of the land.
3. From your cross-section answer the following questions.
 - a. Which region is the oldest? How do you know?
 - b. Which region is the youngest? How do you know?
 - c. Which region can be described as composed of worn & rounded mountains?
 - d. In which region do you live?
4. Use the blank of map of Canada and convert it into a map illustrating Canada's 8 Physical Regions. **YOU NEED TO BE ACCURATE WHEN DRAWING IN THE REGION BOUNDARIES.**
