

# Shaping the Land

(Perspectives page 16-17)

1. Define each of the following:

Weathering

Erosion

Glaciation

Zone of accumulation

2. In your own words describe how a glacier forms and how glaciers move.

3. How are glacial landforms created?

4. Look at figure 1.5c and describe what the following features look like.

Drumlin

Esker

Kettle lake

Moraine
