To the hiring team,

I am writing to express an interest in your Web Developer position. As I prepare to graduate from Southern New Hampshire University with a concentration in Information Technology, I feel it is important to begin looking for employment now.

Over my time at SNHU I have had the opportunity to study the basics of HTML, CSS, JavaScript, C# and the principles of responsive web design. I have been successful in these classes and will be graduating in May with a final GPA of more than 3.3. In my free time I have created my own websites and projects, and have begun to offer my services to friends and non-profits in my area. I believe that I now have a foundation that will make me a valuable Junior Developer, and will allow me to continue to learn on the job.

I hope you will take the time to explore my website to see what I have to offer. Please reach out with any questions or to schedule an interview.

Thank you for your time,

Jacob Northfield
