

# Olwë

Olwë is king of the Telerin Elves of Aman, and younger brother of Elu Thingol, King of the Sindar.

Elwë and Olwë were both lords of the third clan of the Elves, the Teleri, and together they lead their people from Cuiviénen to Aman. However, during a long war in Beleriand Elwë disappeared. After years of searching, Olwë grew impatient, and led the greater part of the Teleri to Valinor, on the insistence of the Vala Ulmo.

Olwë became lord of the island of Tol Eressëa, where the Teleri built a great number of cities, and grew in number. When they finally came to Eldamar some centuries later, Olwë became King of Alqualondë. His daughter Eäruen married Finarfin, son of Finwë, and later High King of the Noldor in Valinor, and thus their children, when these returned to Middle-earth, could claim kinship to Thingol.

Lord of the Teleri in Aman
