- | | | | |
|----------------------------|---------------|--------------------|----------------------|
| • Cypress | • React | • JavaScript | • HTML |
| • CSS SASS SCSS LESS | • Git | • GitHub | • Maya |
| • AutoDesk | • UI/UX | • Figma | • Graphic Design |
| • Illustration | • Adobe Suite | • Customer Service | • Medical Laboratory |

PROJECTS

Recipe Matcher 2020 – 2020

Created with Figma, React, Redux, Databases, CSS, Styled components, Remote Teamwork, and an awesome team! My classmate and I came up with the idea to create a Recipe website & app that can and will utilize API and user-created recipes to have at the tip of your fingers. We brought on 2 other classmates to help with API and backend and together was able to get the website almost completed, and will be completing the app as soon as the entire website is functional.

Pokemon API Website 2020 – 2020

Created with React, CSS, HTML, JS. Created a web page that presents a styled list of characters obtained from Pokemon API.

Pasta Amore's Website

Created with HTML, CSS, XML. Was able to stick to a 2-week deadline, by completing this website in 8 days. I was given only the brand style guide.

Animated Navigation Website

Created this with HTML, CSS & JavaScript. Was given the deadline of 1 week, and completed in 1 day.
