

UPDATE

```
#update
import MySQLdb

db = MySQLdb.connect.connect(
    "localhost",
    "user",
    "user123",
    "MYDB"
)

cursor = db.cursor()

sql = "UPDATE STUDENT SET AGE = AGE + 1"
WHERE SEX = "%c"%'M)";

try:
    cursor.execute(sql)
    db.commit()
except:
    db.rollback()
db.close()
```

DELETE

```
# delete
import MySQLdb

db=MySQLdb.connect("localhost", "user", "user123", "MYDB")

cursor = db.cursor

sql="DELETE FROM STUDENT WHERE AGE>"%d"%(20)

try:
    cursor.execute(sql)
    db.commit()
except:
```

`db.rollback()`

`db.close()`
