## experience

## Smarter Life

Thank you for considering SUN Smarter Life Classic Peso 10, a smart solution which helps address your various financial needs, primarily :

$\square$ Retirement

Education Health

$\square$ Saving for Life Milestones (eg start a business, new house, travel, fund for loved ones, etc) $\square$ Investment

SUN Smarter Life Classic Peso 10 will allow you to enjoy the following key benefits:
DOUBLE LIFE INSURANCE COVERAGE
Make a smart move by securing your family's future. This product provides life insurance coverage equal to twice the face amount starting from Day 1 until Age 100.

## LIVING BENEFITS

Use your policy's guaranteed cash value in case of emergency, through a policy loan. In addition, your policy may earn dividends* which you may: (i) receive in cash, (ii) use to pay for future premiums, (iii) use to increase your coverage, or (iv) leave with the Company to accumulate.

A portion of the Face Amount may also be advanced if the life insured is diagnosed to be terminally ill.

## FLEXIBLE PAYMENT MODES

With SUN Smarter Life Classic Peso 10, you may choose to pay annual, semi-annual, quarterly, or monthly** mode.

* Dividends are not guaranteed.
** Monthly payment available under Auto-debit or Auto-charge arrangement after payment of initial quarterly premium.

## SUMMARY OF BENEFITS

| BASIC PLAN | AMOUNT |
| :--- | ---: |
| Face Amount | $1,000,000.00$ |
| Guaranteed Insurance Coverage | $2,000,000.00$ |

## SUPPLEMENTARY BENEFITS

Accidental Death Benefit (ADB)
Total Disability Benefit (TDB)
Living Benefit Rider (LBR)

This is for information purposes only and is not a contract of insurance. For more information on the above benefits and additional details, please refer to the product proposal attached herein.

In the Philippines, insurance products are being offered through Sun Life of Canada (Philippines), Inc., a member of the Sun Life Financial group of companies. In this proposal, you and your refer to the policy owner while we, us, our and the Company refer to Sun Life of Canada (Philippines), Inc.

## Proposal Information

| On the Life of : MRS. CYNTHIA ABRUGUENA | Age Last Birthday Currency |  |  | Female) <br> ppine Peso |
| :---: | :---: | :---: | :---: | :---: |
| Basic Plan | Face Amount |  | Annual Premium |  |
| SUN Smarter Life <br> Classic Peso 10 - Non-Smoker <br> 10 Years Guaranteed Premium Payment <br> (Guaranteed Death Benefit equals 200\% of Face Amount) | Ps | 1,000,000.00 | Ps | 118,480.00 |
| Supplementary Benefits | Ps | 1,000,000.00 | PsPs |  |
| Accidental Death Benefit <br> Total Disability Benefit (Waiver of Premium) Living Benefit Rider* |  |  |  | $\begin{array}{r} 990.00 \\ 3,070.00 \\ \text { FREE } \end{array}$ |
| Class: Standard |  | nual Premium | Ps | 122,540.00 |

* Living Benefit Rider - This is a benefit that provides an advance payment of up to $60 \%$ of the basic Face Amount, subject to the prior deduction of any outstanding advances (loans) with interest, if the life insured is diagnosed to be terminally ill with a life expectancy of 12 months or less. The sum of all Living Benefit Amounts payable on all Sun Life policies of the life insured shall not exceed Ps. 2 Million. Interest is charged on advances, including the Living Benefit amount paid, at a specified rate of interest as declared by the Company.

The following caveats shall apply to the succeeding pages of this proposal illustration:
(i) The succeeding tables are only summary illustrations of the major benefits of your policy. You should refer to your advisor or the Company for more information or, if appropriate, a more detailed proposal.
(ii) The illustration assumes that all premiums are paid in full when due and you will have no loans/advances on the policy.
(iii) The amount of total premium(s) may differ slightly from the total of the premiums payable in the policy due to rounding differences.
(iv) Under the Summary of Benefits, there are two scenarios illustrated:
(1) Based on current dividend scale and current accumulation rate; and
(2) Based on interest rate which is 60 basis points lower than the current interest rate used for computing the annual dividends and accumulation rate which is 40 basis points lower than the current accumulation rate.
(v) You can leave the amount of projected dividends to accumulate with the Company at an accumulation rate, which will change from time to time. The accumulation rates used to illustrate the effect of accumulation are current $4.40 \%$ and $4.00 \%$ per annum. These rates are not guaranteed. You can also cash all or part of the amount of projected dividends without affecting the Face Amount but the values shown in the table will be reduced accordingly.
The scale of dividends and accumulation rates, however, are likely to change during your policy's lifetime. As the changes will affect the figures, we prepared this proposal for information purposes only, to demonstrate the features of the recommended policy. This does not form part of any policy that may be issued. It is neither an estimate nor a guarantee of the future policy performance.

While we have made every effort to ensure accuracy, errors and omissions may have occurred in the preparation of this proposal. For more information on the dividends, please refer to the Dividend Information page.

## Declaration

I confirm having read and understood the disclosures in this proposal illustration.

## Dividend Information

## Dividends

Sun Life Philippines will allot as a dividend once a year that part, if any, of Sun Life Philippines' surplus as may be distributed to the policy except when the policy is being continued as paid-up term insurance. Dividends will be applied to buy paid-up additions if no other option is elected. The dividend accumulations may be withdrawn by the owner on written request to pay any advances with interest or any unpaid premium.

Dividends are not guaranteed and our Board of Directors also has the discretion to raise or lower the Company's dividend scale.

## Options

You have a choice of several dividend options depending on your chosen participating product. You may change the policy's dividend option anytime upon request. The current dividend options available are:

## 1. Paid-Up Additions

Dividends are used to purchase additional Paid-Up Insurance. Paid-up Additions themselves are participating.

## 2. Premium Reduction

Dividends are applied towards the payment of your current amount due.
3. Dividend Accumulation Dividends left with the company accumulate at the rate we declare. We will not pay any dividend accumulation for the period between the withdrawal date and the previous policy anniversary.
4. Cash Dividends are paid yearly to you in cash.

I acknowledge that:

I have applied with Sun Life of Canada (Philippines), Inc. for a SUN Smarter Life Classic Peso 10 policy, and have reviewed the illustration(s) that shows how a life insurance policy performs using the company's assumptions based on Insurance Commission's guidelines on accumulation rates.

I understand that only those values described as guaranteed, if any, are guaranteed. All other policy values can change and may probably be different from those illustrated to me. Actual values may be higher or lower depending on the dividend rates actually earned.

I understand that dividend rates change from year to year since these are affected by the company's mortality experience, investment returns, expenses, and taxes, and that Sun Life of Canada (Philippines), Inc. will advise me of the actual amount of the dividend, if any.

I understand that the illustration(s) given to me will not become part of any issued policy, as these are provided only to show how policy benefits would change over time under a specific set of assumptions.
