

*Winner of the People's Choice Award at
the National Jensen Rally, 1994.*

This award winning Jensen Interceptor Mk3 (128/4319) won the People's Choice Award at the National Rally in Mudgee, 1994.

The car had been beautifully finished in a very appealing Maroon body colour, with an equally stunning light grey leather interior.

The pride and joy of its owner even today, this desirable car has recently been upgraded with electronic fuel injection and a 4 speed automatic gearbox. Not bad for a car built in the early 1970's.
