

THE NAMES LIST Version 7.2

We apologize if any names are misspelled, misplaced or in any other way misused – we can't know everything!

Shorter versions and/or nicknames are listed as Name (Short version)

Some names are listed with their meaning in English as Name=english word

All firstnames marked with an * are rather old-fashioned and not common among younger people any more.

The surnames marked with an ** are names of prominent persons which are actually very rare.

CONTEMPORARY NAMES

(Bear in mind that several countries, China to name one, list surnames/family names **before** firstnames/personal names!)
