OBJECTIVE

To work in an entry level editing or PA position within a production company or television station where I can use my creativity to help tell a story.

PROGRAMS

Final Cut Pro, Soundtrack Pro, Motion, LiveType, Compressor, and DVD Studio Pro.

QUALIFICATIONS

- Six years of video editing experience; two years of professional multimedia experience
- Holds a secret-level security clearance (inactive)
- Works well with a team to accomplish tasks in strict deadlines
- Continually expanding my professional knowledge and skills of media production

SKILLS

- Logging, capturing, exporting, organizing, and managing digital media
- Editing SD and HD video, including multicam sequences
- Digital audio restoration, composition, sound FX, and scoring
- Compressing, digitizing, and outputting media for export
- DVD authoring, menu designing, and label designing

EXPERIENCE

Conducting an Effective Clinical Post Conference

Educational video produced for the Germanna Community College Nursing Program.

Virtual Hospital at GCC

Award winning demo video made for the Germanna Community College Nursing Program.

Wireless Pioneers

Educational video produced and edited with voice-over narration on the history of wireless communication.

One Foot Forward

Commercial Web advertisement produced and edited for the indie rock band *One Foot Forward* on their first tour.

Powered Paragliding in VA

Self made sport-aviation documentary shot for the Web and specially featured in *The Free-Lance Star* newspaper.

48 Hour Film Project

Shot, edited, and scored “Shadow” for the 2008 Washington D.C. 48HFP with Germanna Community College Student Activities Film Club.

Live Productions:

Live-to-tape camera support for *Ill Angelic* in Richmond; *One Foot Forward* concert in Fredericksburg (multicam); *TAEA* show in Richmond and Fredericksburg (2 DVDs); Two *TAEA* music videos and one promo slideshow; Two *Midnight Rider* shows, shot and edited in multicam.

EMPLOYMENT HISTORY

Multimedia Audio/Video Technician, Germanna Community College, February 2007 – Present

Installs and configures audio/video equipment for classroom use. Operates Tandberg and Crestron units to establish video conferencing. Maintains functionality of data projectors and other video equipment. Troubleshoots and resolves issues with faulty equipment. Produce, direct, shoot, edit, score, publish, duplicate, and distribute media for faculty, staff, and students. Provides audio/video support using sound, lighting, and video equipment for business events. Works with faculty, staff, and IT team members to provide services that give students access to resources, enabling them to succeed in a higher education.

Network Switch Technician, U.S. Army, January 2002 – January 2006

Installs, operates, and maintains telecommunications equipment to provide secure and non-secure voice and data communications.
