** How to read this Worksheet:
 1) Total "Average" is a calculation based on all eligible events attended (rating 0 - 3, where 0 is no attendance and 3 is full attendance/performance)
 2) In addition to daily performance the "Participation" calculation is a cumulative average of the number of events each member has shown up to out of all events they could have attended, including a avg for LS as a whole
 3) To make the "Average" and "Avg Participation" fair, both must be used when evaluation any member because they may rank high in one ratio but not score in another. This also servers to no tip the scale based on one metric
