I was born in Virginia and raised in Aurora, Colorado. I have worked on computer designs since I was 10 years old. Creating things on the old 'Paint' application on Microsoft was my favorite thing to do growing up, so Graphic Design was a natural path for me to follow. I love creating things and being artistic. I would say my strengths are (1) excellent time management skills, (2) an ability to visualize abstract ideas, (3) a quick and witty sense of humor, (4) effective communication skills, (5) and a strong sense of design. Creating an effective design that is both functional and artistic is one of the most satisfying problem-solving solutions. Besides design and art, I love playing with my dogs, learning about unusual facts, listening to music and cooking. I am excited to continue my career with you and look forward to work with you creatively.
