

Florida Initial Machine Count Vote Fallout

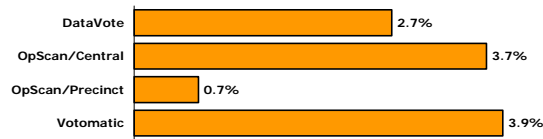

This spreadsheet shows vote fallout for the initial Florida machine count, and summarizes the fallout by voting system type.

*Due to missing data, the undervote totals in this worksheet include undervote projections for De Soto, Escambia, Gilchrist, Holmes, Madison, Santa Rosa, Union and Wakulla Counties based on the average undervote rates for the voting system used in each county. The projections, from 6767 uncounted ballots, add 805 ballots to the undervote total, 1.3% of the total.

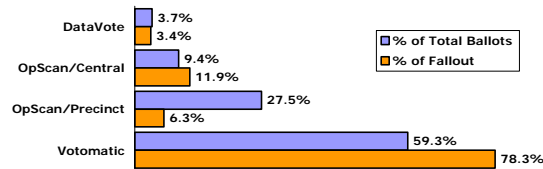

Fallout Summary by Voting System

Voting System	Total Ballots	Accepted	Uncounted	Reported Undervote *	Possible Overvote	% of Total Ballots	% Fallout	% of Fallout	% Undervote	% of Undervote	% Overvote	% of Overvote	% of Rejected (Undervote)
