bio:

All racers possess a passion and natural instinct for speed and Kyle is no exception. What makes him unique in the ranks of the "speed-driven" is his extensive engineering education and aerospace knowledge. Kyle has a B.S. degree from Purdue University in Aeronautical Engineering and a Master's degree from UCSD in Aero Structural Engineering. In the past few years, he has worked on rocket engines, launch vehicles, missiles, satellites, aircraft (manned and unmanned), and jet engines. When not on the track, Kyle can be found flying, having obtained his pilot's license when he was 17.
