

Human Powered Challenge 2006

Safety Certification/Indemnity Form

As the owner of the following entry in this Kiwi HPV Inc. event, I/we certify that:

1. the design and construction of the vehicle has been carried out with due consideration of occupant and bystander safety;
2. the vehicle has a safe and reliable braking system, and a steering system that will allow the vehicle to maneuver in a safe and predictable fashion;
3. the vehicle has surfaces that are free from sharp edges and protrusions: or that such edges and protrusions have been adequately covered with padding material;
4. all riders associated with this vehicle will wear NZ safety standards approved cycle helmet/s while operating any human-powered vehicle either on or near the event course;
5. all riders using the vehicle at this event have had experience riding the vehicle prior to the event;
6. I/we understand that our vehicle is subject to on-site inspection and testing and that any modification to the vehicle that reduces the safety of the design to an unacceptable level in the view of the event officials may result in the disqualification of the vehicle from the event;
7. I/we understand that we take part in the Human Powered Challenge 2006 event at our own risk.
