

## The Nelson TT 2006

**TRAFALGAR PARK CYCLE TRACK, NELSON**  
**Sunday, 27th August, 2006 7:30am -12:00noon**

### WHAT IS THE NELSON TT?

This is Nelson's first ever event for Human Powered Vehicles (or HPVs for short).

If you own a recumbent bicycle, tricycle, velomobile, or any other unusual form of human-powered transportation, then please come along! The aim of the Nelson TT is to help foster the development of HPVs within New Zealand and for locally-based HPV owners to have the chance to test both themselves and their machines.

If you own an HPV, but are not up to racing it, then feel free to hire a rider for the day.

### EVENT FORMAT:

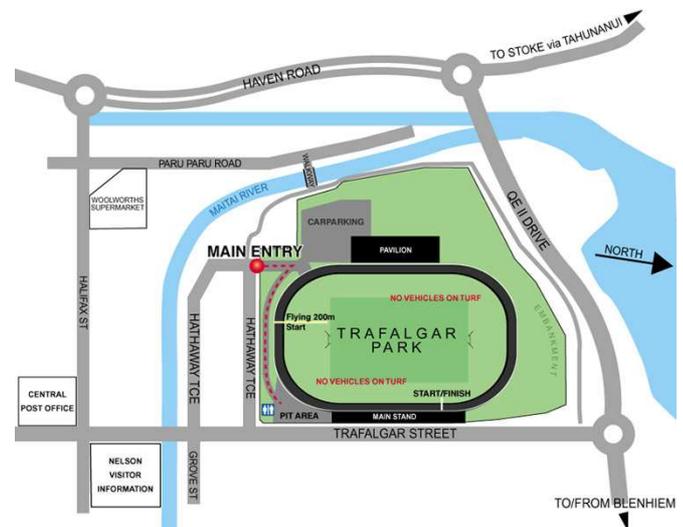

**7:30am** Gates open at Trafalgar Park for Entrant Registration and warm-up.

**8:30am** Entrants' Briefing

**8:45am DEVIL TAKES THE HINDMOST**  
A circuit race where the slower riders in the field get dropped off, at the rate of one per lap, until there is only one rider left.

**9:30am FLYING 200m** – Find out how fast you can go! Each competitor has 400m to get up to speed and then gets timed over a 200 metre distance.

**10:40am ONE HOUR ENDURO** – Open to solo riders as well as to teams of riders. Le Mans style start, 1 hour lap race, most laps in an hour wins, with bonus points for those machines carrying cargo (which will consist of 2 litre bottles of water, as supplied by the organisers).

### ENTRY FEES (per machine):

For Kiwi HPV members: \$5.00

For non-Kiwi HPV members: \$10.00

Please note that conventional bicycles will not be allowed to compete.

### FOR MORE INFORMATION:
