

List of Leakage and Related Publication

1. A Review of Performance Indicators for Real Losses from Water Supply Systems
2. What do we know about pressure: leakage relationships in distribution systems?
3. International report Water Losses Management and Techniques,
4. Practical Experience in using the Infrastructure Leakage Index

5. Leakage reduction through pressure management in south Africa
6. Aqualibre™ - A New Innovative Water Balance Software.
7. Do You Know How Misleading the Use of Wrong Performance Indicators can be?
8. Outsourcing of Water Loss Reduction Activities – the Malaysia Experience
9. Component Based Analysis for Management of Leakage in Potable Water Supply Systems
10. Leakage reduction software developed through the water research commission
11. Testing the UARL & ILI approach using a large UK Data Set
12. Lies, Damn Lies and Leakage Statistics Dave Pearson
13. Use of Infrastructure Leakage Index in Malaysia. Preston
14. International Approach to water loss reduction, Brothers
15. DMA Design and application for NRW reduction in Canada,
16. Using IWA performance indicator and noise mapping....Brothers
17. Developing a strategy for leakage management in water distribution systems
18. Non revenue water - international best practice for assessment, monitoring and control
19. Leakage/Non Revenue Water [NRW] Reduction.
20. LEAKAGE MANAGEMENT: Introduction to WRC Tools to Manage Non-Revenue Water
21. Estimating Leaks in Water Distribution Systems by Sequential Statistical Analysis of Continuous Flow Readings

22. Leakage and Water Efficiency. Audit report, OFWAT, UK
23. Information on BABE
24. Question and Answer on BABE
25. Best practice principles in the economic level of leakage calculation
26. LEAKAGE PERFORMANCE INDICATORS
27. APLE™ - Application of Practical Leakage Economics Demand Management
28. Assessing Water Losses: Conference Presentation
29. Cambridge Modeling helps network management
30. A Summary of the Christchurch City Council Water Supply Asset Management Plan 2002
31. Hydraulic Modeling, GIS and Leakage Management
32. Leakage targets – your views on the way ahead (Interview of Mr. Lambert)
33. Pipe Leakage-Future Challenge and Solutions
34. Managing Leakage- Pressure Optimization for Water Conservation
35. Pressure Testing Manual
36. Pump System Controllers for Leakage Management

37. Managing leakage by managing pressure: a practical approach
38. Leak detection practices and techniques: a practical approach
39. Managing leakage by District Metered Areas: a practical approach
40. Highlights of the IWA system of performance indicators for water supply services
41. German National Report: Water Loss Management and Techniques
42. IWA-the blue pages
43. Summery report: tripartite group
