Ingleside breaks ground for new facility

Attending the ground-breaking of Ingleside last Wednesday were, from left, Rose 1: Ingleside Trustee Richard Crenshaw, Ingleside resident Edna Bergerson, Trustee Ralph Brevetti, Henry Buckel, Richard East and Jane Underwood, Board President Walter Dartsch, Trustee Arthur Satter, Ingleside resident Lyle Hill, Ingleside Manager Barbara Shaw. Rose 2: First Secretary Ruth Van President Terry Taylor, Krupp Construction Co. Project Superintendent Scott McKinley, Krupp Project Manager Steve Taylor, Ingleside Director of Environmental Services Bill Sullivan, State Rep. Kirk Steinfurth, Ingleside Administrator Michael Rock and Architectural 2001 Project Architect Rich Koroski. Photo by Judy Belch.

by Judy Belch

Ground was broken last week for a new 24-apartment Residential Care Apartment Complex at Ingleside/Ingleside by Mount Horab.

Ingleside Director Michael Rock said there will be 24 one-bedroom, 300 square-foot units and four two-bedroom, 640 square-foot units combined, with a total square footage of 25,000 square feet. The new addition will be located to the north of the existing building.

"This will be the fourth kind of facility for us," Rock said. "We have

Ingleside Nursing Home, Ingleside Assisted Living Center and Ingleside Alzheimer's Unit."

Rock said the assisted care apartment complex, a specially designed facility, will cater to retired people and will have on-site clock staff and medical emergency response. Ingleside's trustee, Rock said, saw the need for the new facility based on the fact that "This is really what people are looking for right now and the belief that times are changing. If people can receive services in a nursing home, they would prefer that."

Construction is expected to be completed by December.
