

April 11, 2008

Dear Dr. Harper,

I am very interested in working as a psychiatrist for your office. I am very well learned in the fields of science and of the human mind. Enclosed is a resume to show you my achievements as a possibility of working with you.

My most recent experience with psychiatry has been the science courses that I have been taking that specifically focus on psychiatry.

As a worker for your office, I will be able to bring many qualities. I am very good at listening and communicating with others and can work with clients. I have confidence in my abilities to diagnose problems.

I would be very grateful if you would consider me for a possible internship. I will call in a few days to schedule an interview.

Sincerely,

Kiyan Savar
