

KSHA Newsletter

September/October 2008

The President's Pen

These last few weeks have felt like Mother Nature was trying to make amends for what she did to us earlier this year. I'm sure there'll be some hot days to come but they will be short-lived! It's been a very short show season for us and maybe that was for the best for everyone considering gas prices and storm damage.

There will be a board meeting, October 26, 1:00 pm, at Butler College in Andover. All members are welcome to attend. We will be discussing new board members (if you don't want to be nominated, you'd better show up!), rule changes to pass on to the All-Breed & Rules committee, the possibility of having an all walk-trot show, as well as anything else that comes to mind between now and then.

*See you in Salina!
Terry Craft
KSHA President*

HORSE EVENTS AT THE KANSAS COLISEUM

If you have NOT attended a horse event this year at the Kansas Coliseum east of Valley Center and north of Park City, you might not be aware of the changes to some of the facilities. There have been some improvements and changes. For example, the two east buildings (the Arena Building and Pavilion II) are now connected by a covered warm-up area.

With the continued development of the new downtown arena in Wichita, many comments are circulating about what horse events will still be scheduled at what is now known as the Kansas Coliseum. To keep informed on such possibilities of what will continue to be offered at the Kansas Coliseum, contact your Sedgwick County Commissioner. If you are unsure what district you live in or which Commissioner you need to speak to, call the County Commission office at 316-660-9300. There are two very competent administrative office workers who answer the phone and they will be glad to direct your call or take a message. THANK YOU FOR YOUR TIME AND INTEREST.

A letter to tech support

Dear Tech Support,

Recently I purchased and installed Horse 1.0. I soon noticed that this program appears to have numerous glitches. For instance, every time my computer boots up, I have to run Feed 5.3 and Water 7.1. Many times I've been in the middle of writing an important document, and a window will flash telling me to run Clean Stall 2.0. This program also contained applications I did not wish to install, such as Manure 8.5, however they auto-installed with Horse 1.0. Applications such as Vacation 2.7 and Free Time 10.1 can no longer run, crashing whenever selected. Possibly the worst is that Horse 1.0 has attached itself to programs like Finance Manager and MS Money, with folders added such as "Monthly Shoeing" and "Winter Blanket." Periodically, I'll get a reminder telling me to send a check to the manufacturer of Horse 1.0 for the aforementioned items. I have tried to uninstall Horse 1.0 numerous times, but when I try to run the uninstall program, I get warning messages telling me that a deadly virus known as "Withdrawal" will infect my system. Please Help!!!!

THE REPLY:

Dear User,

Your complaint is not unusual. A common misconception among users is that Horse 1.0 is a mere "utilities and entertainment program." It is not - it is an OPERATING SYSTEM and is designed by its creator to run everything! A warning will soon be imprinted on the box. Since you have already installed Horse 1.0, here are a few tips on how to make it run better. If you are annoyed by the applications Feed 5.3 and Water 7.1, you may run C:\HIRE HELP, however this will cause another folder to be added to financial applications, labeled "Staff." Failure to send payment to "Staff" will result in Feed 5.3 and Water 7.1 being run again on startup. A note of caution: NOT booting up your computer for several days isn't the solution to avoiding Feed 5.3 and Water 7.1. You will find that, when you boot up your computer again, a nasty virus called "Colic 4.2" will have attached itself to important documents and the only way to rid your computer of Colic 4.2 is by purchasing and installing "Vet 10.1", which we admit is extremely expensive, but crucial. Otherwise, Colic 4.2 will cause irreversible damage to the operating system. Finally, it is important that you run C:\Carrots and C:\Scratch Ears on a fairly regular basis to keep the application running smoothly. If you have any more questions, please call our toll free number.

Sincerely, Tech Support
