MEMORANDUM

To : All Officers and Teachers-in-Charge, Cadet Command
From : Assistant Commissioner, Cadet Command
File Ref : _____ **Date :** 27 August 2008
Subject : Proficiency Courses and Grand Achievement Award

The existing structure of Proficiency Courses leading to the Grand Achievement Award has been in place long since the establishment of the Cadet Section some 60 years ago. In line with the changing environment and to ensure an all-round development of our young cadets, amendment of the course structure was endorsed at the Senior Officers' Meeting held on 23 July 2008.

The courses are categorized into 8 modules which are:

- | | |
|-------------------------------|--------------------------|
| 1. Care | 2. Emergency Care |
| 3. Communication | 4. Crafts & Hobbies |
| 5. Outdoor Life Skills | 6. Sports |
| 7. Civil & Domestic Education | 8. Knowledge of St. John |

The first seven modules will be chaired and under the supervision of Senior Superintendents. Details will be announced later. The new scheme will be effective from 1 January 2009.

Before 1 January 2009, the Interim arrangements are as follows:

1. Cadets who have already obtained 8 proficiency courses by 31 December 2008 will follow the old scheme if they can complete the remaining 4 courses by 31 December 2009.
2. All other cadets will have to follow the new scheme from 1 January 2009.

You are most welcome to contact the OIC Administrative Region or the Officer-in-Charge, Training & Development Section should you have any query to clarify.

John Fenn
Assistant Commissioner
