

INFORMATION ABOUT THE DISTANCE LEARNING DEPARTMENT

The distance learning represents information-educational system on a distance access which based on modern information technologies. Now it is the most dynamically developed form of training. It is possible to use in a higher school and also can use for improvement of professional skill and retraining of the experts.

Last years in our republic as well as abroad the idea of development system of distance learning is gained large popularity. The distance learning based on using update computer and communication technologies allow to decide tasks of training and improvement of professional skill of the people who are far away from the educational, scientific and technical centres.

In the Institute of new information technologies of the I. Arabaeva Kyrgyz State Pedagogical University under the decision of Sciene of Council was organized in June, 2003 the correspondence and distance learning. On the faculty began to prepare informatics specialists in the distance.

The head of department was appointed the candidate of pedagogical sciences, dosent Kenenbaev.A.M.

Head of department A.M. Kenenbaev with his collaborators

This year the correspondence and distance learning faculty for service of educational process and software under distance learning was organized the problem laboratory.

Following assistants of the laboratory G.I.Ajymambetova, T.K.Jamakeev, A.A. Mamadieva, U.A.Esengulov, G.B.Sheralieva, J.K.Mokeshov, A.K. Omurova answering on all questions of the students and continuously worked at elaborations of educational - methodical materials on disciplines. The prepared materials by them are placed on a site of institute to the address. www.init.arunet.kg/webilim.

The correspondence and distance learning faculty of INIT was deformed in September, 2006. On the base of the deformed faculty was organized the distance learning department. In the department by leading the candidate of pedagogical sciences, dosent A.M.Kenenbaev was organized the educational process of distance learning for preparation informatics teacher specialists.

Since October 2007 the distance learning department referred to the institute of innovation and communication technologies. During organization of distance learning in the department took into account almost all positive and rather negative sides and also took into account features of economical and political situations in republic and mentalitet of our future students.

During a count practice

All persons without restriction of age with mid (full) general education are accepted to the institute. During educational process will offer to the students a package of educational and methodical materials which worked out by doctors and candidates of sciences Jusupbaev A., Kenenbaev A.M., Kutanov A.K., Karakeev T.T., Amerdinova M., Usenov I.A., Akbekov T.M. Tokonbekova K.Ch., Pankov V.V., Akunova K.A., Beishenalieva S.T., Duishokov K., Kydyrova Y., Tolubaev J., Baetov A., Ajymambetova G., Apeshov N.R., Asylbekova K.J., Kadyrkulova Z.A., Razieva R.R., Janybaev A.O., Abdyshukurova G.J. and other specialists, methodists and pedagogies with great experience of our republic.

In difference from traditional methods of distance learning for a consultation, passing exams and credit tests (final controls we recommend to our students all kinds of types and forms). For all that at this moment all available kinds communications are offered: the Internet, videoconference, e-mail and site of our institute, telephone, fax, mail.

In the institute of the faculty or at the resource centre has opportunity to organize group and individual consultations, on the phone, under the Internet and so on. At any time at the correspondence and distance learning faculty of INIT web sites and electronic library are opened and students can use them.

At any time students can pass exams and credit tests on educational disciplines. Here there is an opportunity to be tested, the students can get marks at once, where are noted down in a database and are stored up till graduate the university by the students. At any time students can see ectronic credit books.

The students of the distance learning department are preparing for final exams

At first time in 2006-2007 academic years 20 graduates pass state final exams successfully and informatics teacher specialists are given.

The first promotion of our distance learning department

Now our all graduates work in different places and they have close contact with our department.
