

Tree of Life.

For Qabalists (Jewish and occult), the Tree of Life is a complete diagram of the universe which explains the diverse aspects, abstract levels and causes of a given situation. When one wishes to uncover profound psychological details of the origins of a situation and to where it is leading (what to do about it), there is no better spread than the Tree of Life. Please note that in this scheme, a reversed card may signify a warning (an encouragement, according to the card) in order to live the card's position in a constructive manner. Generally, everything is in the present because the Tree of Life is intemporal. However, owing that our physical incarnation requires the time factor, one can perceive an evolution from the past to the future from cards 1 to 10.

The variants in interpretation demonstrate the globality of this layout and aim to complement, explain each other rather than to contradict each other.

Thelemic Spread.

Very useful and clear spread to determine exactly the pros and cons of something in relation to the effects it will have on the future. Clear prediction of the future.

- 1-2-3: The person involved at the present time.
- 4-8-12: Likely outcome if nothing changes.
- 5-9-13: Alternate outcome if course of action is altered or supplementary information if the two upper groups are similar.
- 6-10-14: Factors that will help decide on course of action.
- 7-11-15: Karmic, inevitable factors or events.

Thelemic Spread.

The Rose and Cross.

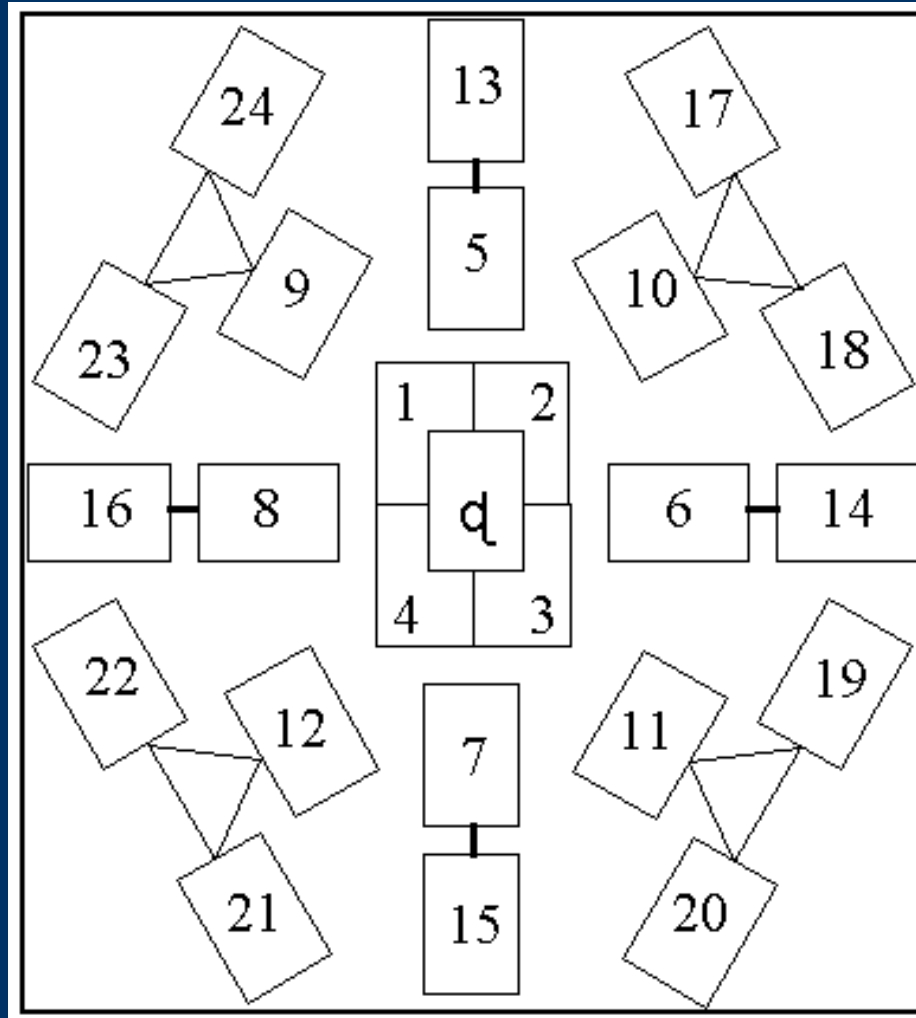

This very detailed method, works on the 4 principles of existence: Light, Life, Love and Liberty. By comparing these conditions with the Archangels and their powers, we obtain a very clear portrait of the answer that we seek.

1- Light: principle which explains intellectually what is happening (or the nature of the person); we speak of the logical aspect, without emotion, that describes the event by bringing the truth to light.

2- Life: active and determining principle concerning work as a profession. What gestures have been posed (what will be the results)? What are our strengths (or weaknesses); how must one act or of what action must we be wary?

3- Love: state of emotions and artistic inspiration. Is there an influential person and/or how do our emotions, feelings and attachments affect the present situation? Do we have a hobby that could affect our present state for better or worse? Is our inspiration (or lack of) flourishing or suffering at this time? Why?

4- Liberty: principle of material comfort and work as a means to "bring home the bacon". On what must we concentrate concerning our financial conditions and practical, down-to-earth matters at this time? Concerns the physical home-dwelling and family.

5- Archangel Raphaël: Justice brought to light. He is the protector with truth. It is therefore a card that dismisses problems by bringing important information to the surface for consideration. It offers information necessary to cut to the core of a matter.

Rose and Cross.

6- Archangel Michael: Force of creation. He represents the energy and strength required to take a certain action.

7- Archangel Gabrielle: She is the love making us persevere. Of what point must we take special care to ensure the health and happiness of the situation?

8- Archangel Aurielle: She is the means for reclamation. What is our principal trump or principal lack? On what can we lean in times of trouble or what hole must we fill to avoid disaster?

9- precision on card 1-Light. Interaction between 8 & 5. What truth is unveiled in our material world?

10- precision on card 2-Life. Intraction between 5 & 6. How do our actions act upon our perception of things?

Rose and Cross.

11- *precision on card 3-Love*. Interaction between 6 & 7. How do our feelings influence our actions?

12- *precision on card 4-Liberty*. Interaction between 7 & 8. Does our material or personal environment affect well or ill our state of mind?

Continue if you wish a more complexe reading only. The more we depart from the center, the more we enter the non-temporal, that is to say, conditions in the spirit that cause events. We can also see it as an internal cause to an external effect (middle toward sides), or we can also see it from future to the past (more or less distant).

13 to 16- *Precisions on the Archangels*: means that they will use, contexts in which cards 5 to 8 will take place, the reasons etc.
