Electronic Career Portfolio: Attorney/Lawyer

The general direction of my career is the law, however, I am going to go as far as to extend the subject to being an attorney, as it is a personal interest of mine, and I am going to be making my letter of application and resume directed towards the art of being an attorney.

For my presentation I used Microsoft Power Point, and for my resume and letter of application I used Microsoft Word. The website that I have created as an extra is supported by geocities.com, and my other extra includes a list of my High School courses.

My sources include <http://www.bls.gov/oco/ocos053.htm>, and [http://law.suite101.com/article.cfm/how\\_to\\_become\\_a\\_lawyer](http://law.suite101.com/article.cfm/how_to_become_a_lawyer). **To run my electronic portfolio, click it on my Geocities website, then open the power point, and follow the hyperlinks on the table of contents page in order to view my resume, letter of application, website, and other slides of the power point.** If the hyperlinks for some reason fail, my resume, letter of application and website address will also be placed on the my website. You may also be able to access my website, resume, or letter of application from the list of table of contents that are located on the next page.

My Table of Contents is as follows on the Power Point Presentation,
