## OVERVIEW

With GFT Mobile, we deliver the power of DealBook® FX to traders who are using wireless technology. In fact, we've created software in a wireless platform that's comparable to most brokers' PC-based applications.

The Enhanced version for Microsoft PocketPC users includes standard features, such as live streaming quotes, full-color charting, complete access to real-time transaction history, account statements and position, margin and risk-analysis.

Forex traders have full access to the forex market:

- Place market-orders on tradable prices
- Chart currencies with real-time, streaming quotes\*
- Access live prices on GFT's quoteboard
- Instant access to prices, orders and open positions
- Trade from charts as you track prices tick-by-tick
- DealBook® FX Mobile Enhanced offers 58 currency pairs.

The Enhanced version also includes a combination of standard and advanced indicators.

Leverage technical indicators, which can be viewed using bars or candles, allowing you to take full advantage a currency pair's historical data. By using the historical charts feature, you can retrieve up to two years of data for most currency pairs. \*\*

- Moving Average (simple)
- Moving Average (exponential)
- Weighted Moving Average
- Triangular Moving Averages
- Momentum
- Relative Strength Index
- MACD
- Bollinger Bands
- Commodity Channel Index
- Indicator 75 (GFT proprietary indicator)
- Linear Regression
- Detrend Oscillator
- Ultimate Oscillator

With just a touch of the stylus you can choose the best way to navigate through Dealbook® FX Mobile - from an "express view" command to built-in "quick-tabs" allowing you to view the information at a glance, including:

- Quotes
- Messages
- Positions
- Order History
- Transfer History
- Charts and Historic Charts.

## INSTALLATION

### DealBook® FX Mobile Enhanced

You may use your PC to download the latest release at <http://www.gftforex.com/products/mobile/enhanced.asp>. **Please make sure to follow both Steps 1 and 2 for downloading the IBM Java Virtual Machine and the GFT Mobile applications.** Once you have downloaded both applications, you will be ready to install.

GLOBAL FOREX TRADING  
Division of Global Futures & Forex, Ltd.  
WWW.GFTFOREX.COM

4760 E. Fulton, Suite 201  
Ada, MI 49301

phone 616.956.9273  
toll free 800.465.4373  
fax 616.974.3682

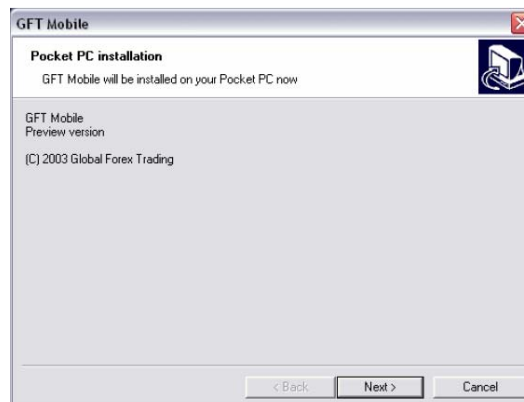

1. Place the PocketPC in the cradle and synchronize with your Desktop PC.

2. First, double-click on the icon labeled "gft-mobile-031117.exe".

3. Follow the setup window instructions as follows:

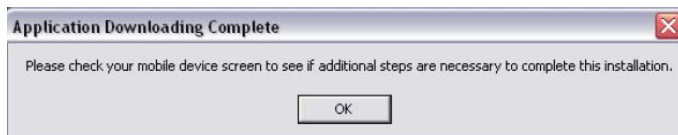

GLOBAL FOREX TRADING  
Division of Global Futures & Forex, Ltd.  
WWW.GFTFOREX.COM

4760 E. Fulton, Suite 201  
Ada, MI 49301

phone 616.956.9273  
toll free 800.465.4373  
fax 616.974.3682

4. Select **Yes** to continue the installation.

fax 616.974.3682

5. Next, double-click the icon labeled "jvm\_pack201.exe"

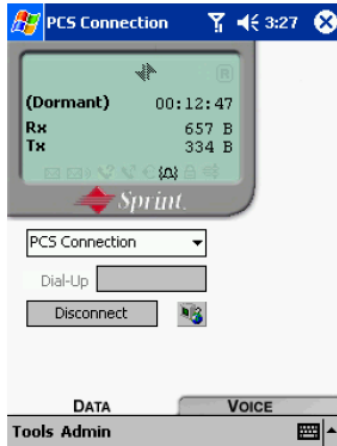

6. Follow the onscreen setup instructions as you did in Step 3 above.

7. Once **both** applications have installed successfully on your mobile device, you are now ready to use GFT Mobile on your PocketPC.

8. **Make sure you have disconnected all DealBookFX sessions on your Desktop PC.**

9. Initialize your wireless data connection.

10. Go to Start -> Programs then locate the GFT Mobile icon.

## DEALBOOK® FX MOBILE BASIC

DealBook® FX Mobile Basic lets you connect through your web enabled cell phone, to our proprietary trading platform, DealBook® FX, using 40-128bit encryption to securely check real time prices, place orders from any location, set price alerts and stay on top of your account status, anywhere, anytime. GFT was one of the first Forex market makers to give it clients wireless FX trading, account monitoring, and position tracking.

For mobile phones with limited functionality, DealBook® FX Mobile Basic offers access to our trading interface using WAP (Wireless Access Protocol). You may have to verify with your service provider if your device is WAP enabled. WAP trading makes available all DealBook® FX features except charts.

For demo accounts, please point your WAP enabled device to:

<http://demo.gftforex.com:8080/wap/index.wml>

At the login screen, please login using your demo account information.

For live accounts, please point your WAP enabled device to:

<http://wap.gftforex.com>

At the login screen, please login using your live account information.

For more information on how to enter this information and store it in your cell phone's memory, please check your cell phone user manual.

## FAQ

Q: I am receiving the "Login Error - Username/password incorrect"

A: Make sure you have logged off all other connections (i.e. PC connections with DealBookFX). Also, check to make sure you have selected the proper System selection (i.e. Demo or Live)

Q: My mobile device disconnects approximately every 10 minutes.

A: This issue has mostly occurred with Sprint wireless services, although it has also happened to other providers. You may also want to check your connection status. A poor internet connection or low connection speed may cause GFT Mobile to disconnect periodically.

Q: After I log into the GFT Mobile client the splash screen appears to freeze.

A: It may take up to 2-5 minutes to login to the client. There are many variables as to the reason for this, but mostly depends on the integrity of your connection.

Q: I have logged off all my connections on my desktop computer, but I am still getting the "Login Error - Username/password incorrect" popup screen

A: Reset your device (usually a small reset button on the back of the device) and reestablish your connection. This will clear any conflicting connections on your device.
