

1. I gave you the Excel file with the two columns in. It looks something like this:

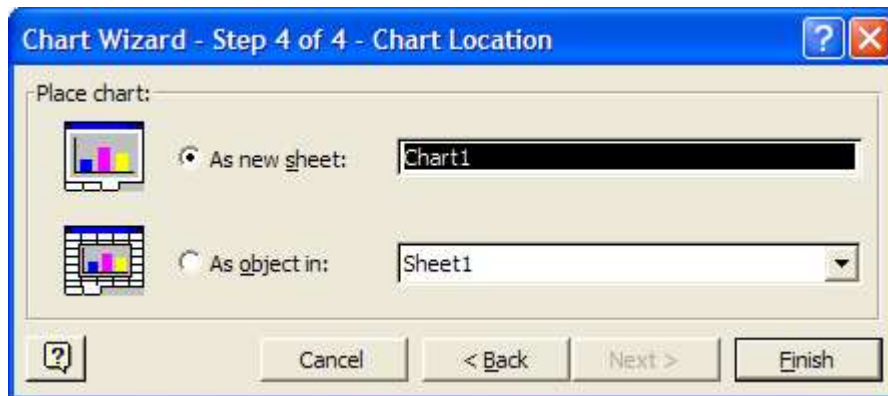

2. Select these cells and then choose **Chart Wizard**

3. Select **XY Scatter** and then the one with lines. See diagram below:

4. Keep pressing **Next >** until you are on Step 4 of 4.

5. Choose **As New Sheet In:** as shown in the diagram below:

6. Press **Finish**.

7. Hey presto! You should have the graph you seek. Enjoy!
