Important Notes

Our field trip is Wednesday, Oct. 15! Please bring a sack lunch and dress comfortably!

We will be taking our Unit 1 Reading Test next week! The best way to prepare for the test is to go over the practice book and phonics book pages at home! There are extra home activities at the bottom. Keep reading every day!

Language Arts

We loved playing x,y,z tic tac toe! We learned a great song about vowels and made our own vowel family. We also have worked on spatial awareness (between, in front of, etc.) We are clapping out syllables in words!

Social Studies

We learned about families and change. We talked about the invention of the washing machine, telephone, and Thomas Edison. We also talked about being good citizens and learned about Kenya.

Religion

We did some reading from the Bible. We have many children's Bibles in our classroom. We also talked about St. Augustine.

Math

We are adding across and down, discovering different ways to add, and adding with zero. We were excited to count our Walk-A-Thon laps! We are still graphing.

Science

We explored the ocean and desert and the animal life that we can find there. We are excited to see the animals at the pumpkin farm next week!
