Important Notes

We had a great (and rainy) time on our field trip! Thanks to all of our chaperones!

Reading test scores will be online and sent home in next week's envelopes.

We are getting ready for our Halloween Program!

Language Arts

We took our Unit Reading test on Tuesday and Thursday. We answered questions about two stories, beginning sounds, ending sounds, nouns, verbs, and finding the right word that fits in a sentence. We made the Old Lady who swallowed a fly!

Seasonal

We did a newspaper article about our field trip. There were quite a few first graders that loved being in the rain! Other favorites were the pig races, pumpkin launcher, hayride, and petting zoo!

Religion

We took our Chapter 3 review. We are learning different ways to praise God. We love seeing the angels in our prayer basket!

Math

We know that we can add in any order and still get the same answer. We used data from a picture to add. We took our Chapter 2 test on Friday

Science

We learned about habitats at the Kennedy Space Center. We also learned about naturalists. We talked about what plants and animals need in order to live and survive. We compared and contrasted.
