Important Notes

We loved seeing many of our families at our Halloween program!

Thank you to Mrs. Meifert and all the family members that helped out at our Halloween Party! We had a wonderful time!

Language Arts

We are working with the short a sound. We are working on sounding out and putting sentences together by looking at the letter patterns in our sight words and spelling words. We are working hard with beginning and ending sounds.

Social Studies

We talked about different types of communities like cities, farms, and neighborhoods.

Religion

We read the story of the Ugly Duckling and talked about being kind friends and how important our feelings are. We finished our Unit 1 review and watched a short Veggie Tales movie on making good choices even when others are not.

Math

We are subtracting from 5, 6, 7, and 8. We are learning to write number sentences and realizing that we can subtract both across and down.

Science

We learned about how animals protect themselves by camouflaging, hiding, and communicating or calling to one another.
