Important Notes

We will be taking our Unit 2 reading test next week.

We are going to the Secret Santa Shop Thursday, Dec. 11.

No Spelling test next week!

We are learning about holidays around the world and studied Hanukkah by watching an educational video online at Discovery Education!

Language Arts

We are working on writing and illustrating a Christmas book.

We have been working with the short o sound and used round stickers to learn our spelling words. We are learning about cause and effect in stories and asking sentences (questions).

Social Studies

We learned about natural resources like coal, air, plants, oil, and water and why they are important. We know we need to keep our world clean.

Religion

We talked about ways we share love for God and others. Fr. Herb came in and visited us and let us ask him LOTS of questions! We had our advent wreath blessed and are learning how to prepare for Jesus' birth.

Math

We are using doubles to subtract and are learning about fact families. We took our Chapter 4 tests.

Science

We studied the life cycle of a frog and a butterfly and then made a life cycle in our journal.
