Important Notes

I hope you all have a wonderful Christmas break! Happy New Year! I look forward to seeing you in 2009!

Math speed tests will begin when we return in January.

Reading calendars will be sent home in January and 80 minutes will be checked weekly.

Language Arts

We worked with the short e sound and continued to practice our sight words and spelling words. We wrote about what we could do to make a grinch grin with our 6th grade buddies! We are working hard on sounding out!

Math

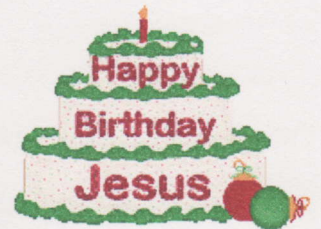

We are working on patterning with shapes, matching shapes, and combining shapes. We learned about problem solving.

Social Studies

We talked more about citizenship and the process of voting.

Science

We learned about food chains and sang a song about how plants and animals get their food

Religion

We know that God is our Father. We learned how to give thanks and praise to Him. We learned the story of Jesus and the Leper.
