

Mrs. Sondej's News

A Newsletter for Parents and Students

Sept. 20, 2008

Volume 1, Issue 4

www.stdominicschool.org (classrooms)

Important Notes

Please empty MOOSE books (Keep at Home folder) every night! They can get quite full! This gives you the chance to see what we are working on in class and if your child is having difficulty! What a great way to help your child on a skill that was covered that day in class!

Language Arts

We are talking about the main idea of a story and what good titles would be for our stories. We made ladybug pages and wrote "I" words. We have also been learning about opposites! We cheer when it is journal time!

Social Studies

We talked about places in our neighborhood. We reviewed special days and times we share with our families.

Religion

Fr. Herb came in and talked to us about St. Francis. We practiced the Sign of the Cross and talked about the Mass.

Math

We are still working on numbers to 12, greater than and less than, and seeing all the ways that numbers can be shown (picture, name, number, manipulatives). We are still patterning!

Science

We learned about the needs of plants and animals. We sorted and counted living and non living things.
