Important Notes

Thank you to all my art, computer, and library helpers!

Thank you also to my helpers that came in Friday and did assessments with the first graders!

We have had 2 mystery readers this week-Mrs. Bickelhaupt and Mrs. Keating! The children loved your stories!

Language Arts

We are doing alot of work with phonics and beginning sounds. We are learning to start our sentences with capital letters and to end with a punctuation mark. We know how to use "spaghetti noodle and meatball spaces" when we write!

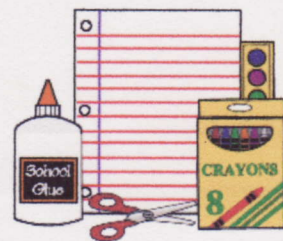

I'm a *beary* good reader

Social Studies

We are continuing our discussion of families and are working on family portraits.

Math

We are continuing to pattern everyday at calendar and during math class. We are reviewing numerals 1-10 (writing and counting) and are going to be assessed on written number recognition to 30.

Science

We are continuing to learn about living and non living things. We visited the junior high science lab and saw a mother frog and her babies.

Religion

We are learning that we are a part of a Catholic community. We wrote our own prayer to God.
