## Important Notes

If you got a Mass part, please practice. We will continue practicing at school and at church.

The bookmobile was cancelled and I will let you know if there is a rescheduled date as soon as I find out.

## Language Arts

We worked on long vowel sounds. We read stories on dinosaurs (1 real, 1 make believe). We used adjectives (describing words) to write sentences. We also did some writing for Mother's Day.

## Seasonal

We worked very hard on some Mother's Day Gifts and even worked in the computer lab making things for our moms!

## Religion

Fr. Herb came and visited with us. We love when he teaches us! We learned about Pentecost (the birthday of the church). We know that Amen means yes, we believe.

## Math

We are working with measuring pounds, kilograms, capacity, cups, pints, quarts, and liters.

## Science

We talked about height vs. weight in matter, moon matter, and are now learning about movement and sound. We talked about force, gravity, and speed.
