Important Notes

It was nice meeting you all at Parent Night!

Check out this month's Scholastic Book Orders online! You will find helpful reading tips as well!

Thank you to everyone who came to me and volunteered themselves for this school year! I truly appreciate it!

Language Arts

We are reading books together and practicing our sight words. We are predicting stories and learning about nouns. We are writing in our journals and using our dictionaries. We love using "spacemen" to help us use proper spaces when we write!

Social Studies

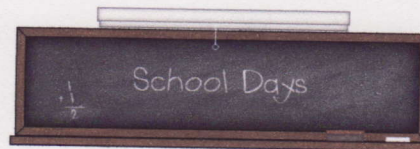

We are talking about families and how they enjoy their time together. We learned about holidays and special celebrations.

Math

We are fixing any backwards numbers that we are making and learning numbers through songs. We are beginning to pattern also.

Science

We learned the difference between living and non living things. We learned how to compare and contrast.

Religion

We are working on our prayers. We have a prayer sheet in our Keep at School Folder for you to look at! We sang a song "Blest Are We" as we started in our new Religion book.
