

This is just a small portion of what was available - so you can imagine what I missed. Hopefully, there'll be a lot more at next year's conference, so make plans to attend.

MICROMAG - this is a Lawrence-based music zine that's the brainchild of Anne Tangeman & Bob Deck. This is one of the first zines I found when I moved here, & it's the zine to pick up if you have any interest in the local music scene. Great interviews & articles (esp. "BACKTRACK", which interviews historical figures in the music scene in Lawrence - they've featured the infamous local venue, The Outhouse & local college station KJHK), reviews of shows & albums, & occasional comics - the latest issue has interviews with **THE WOGGLES** & **JMM**, director/writer of **THE SORE LOSERS**. It's well written, has a great sense of humor, sized to fit in your pocket & best of all, it's (in Lawrence & KC)! Good people - great zine.

How to install your
Micro Mag
... a screwdriver
is all you need!
